

LAUNDRY LEGENDS

WE WASH IT WELL

Complete Project Dossier Revision 3 · Final

Session handover, verified audit, design system, feature roadmap, AU compliance register, decision log and the complete website source of record. Laundry pickup & delivery across Brisbane, Logan and South East Queensland.

PREPARED FOR

Max Jones and Callum Page, principals

LIVE ARTEFACT

claude.ai/artifact/5QptppvdarNfZyVYBFpyy3
(published this session; two older artefacts still titled "LaundryKings" were not overwritten and should be retired manually)

PROPOSED FILING

MAXCAL | Laundrylegends > GOV00 > LLG-
GOV00-01_Complete Dossier_v3 (prefix LLG is an assumption; confirm against artefact register)

DATE

19 September 2026 (AEST) · supersedes v2 of 19 September 2026 — v2 rebranded LaundryKings → Laundrylegends throughout; the live artefact URL below is new, published this session

SOURCE OF RECORD

GitHub xrcallum/King-laundry- · SHA-256
63a2957c...a5afa

STATUS LEGEND

VERIFIED = re-checked against live file or live system · UNVERIFIED = stated, not yet confirmed · ASSUMPTION = modelled, variable named · CORRECTED = v1 figure changed

Contents

Parts 0 to 18 are the working dossier. Appendices A to E carry the verification evidence, the sources, the complete source code, the fact-check register and the build record. Read Part 0 first; it is the three-page version of everything else.

Part 0 — Executive summary, what changed in v2, and the seven findings that change the plan	p. 3
Part 1 — Where we left off and the exact next action	p. 6
Part 2 — The project, principals, brand system and voice	p. 7
Part 3 — Pricing, competitor rate card, unit economics, coverage and booking config	p. 9
Part 4 — Architecture, data model, job lifecycle and the production target	p. 13
Part 5 — What has been shipped (v4.2)	p. 15
Part 6 — Linear state, cross-checked live, with hygiene actions	p. 16
Part 7 — Design audit, re-verified against the live file (15 defects confirmed, 6 added)	p. 18
Part 8 — Design system specification: Bold Editorial	p. 22
Part 9 — Feature recommendations: Now / Next / Later	p. 26
Part 10 — Operator model, onboarding, WHS and insurance	p. 29
Part 11 — AU compliance register	p. 32
Part 12 — Competitor context	p. 34
Part 13 — Risk register	p. 35
Part 14 — Roadmap, milestones and launch checklist	p. 36
Part 15 — Measurement: KPI tree and instrumentation	p. 38
Part 16 — Decision log (options, recommended first, owner and date)	p. 39
Part 17 — Connectors, filing, publish rules and the revised resume block	p. 42
Part 18 — Information capture: what we need from whom	p. 44
Appendix A — Verification report (methods, commands, results)	p. 46
Appendix B — Sources	p. 52
Appendix C — Complete website source code, v4.4 repository copy, verbatim and unabridged	p. 54
Appendix D — Fact-check register: every claim, its method and its result	p. 134
Appendix E — Build record: Phases A, B and C, and the defect the audit missed	p. 139

How to read the tags

VERIFIED re-checked in this revision against the live artefact file, Linear, Vercel or a cited public source.
CORRECTED a v1 figure that was wrong or imprecise; the new figure follows. **UNVERIFIED** stated by a principal or a source we could not reach; the confirming step is named. **ASSUMPTION** a modelled figure; the basis and the variable that drives it are named. **NEW IN V2** content that did not exist in v1.

PART 0

Executive summary

The plan in v1 was right in direction, and one thing it asserted was wrong: the site did not work end to end. Building Phase A found that the customer app never initialised at all (Appendix E). That is fixed, along with the three design phases. Re-verifying every number against the live file and the live systems changed seven things, and each of them changes what happens next. This part is the whole dossier in three pages.

34

hash-routed pages in one 236 KB file VERIFIED

75

emoji inside <i> tags, not 47 CORRECTED

21

design defects (15 confirmed + 6 new)

4 / 14

Linear issues done / total, M1 due 15 Oct 2026 VERIFIED

The seven findings that change the plan

#	Finding	Evidence	What changes
1	The v1 PDF is not a usable copy of the source. CORRECTED	351 of 3,586 lines in Part 11 of v1 were cut at the page edge with a " >>" marker. Only 218,696 of 236,498 bytes are recoverable from the PDF. The live artefact was read in full and hashed instead (Appendix A).	The Git repository xrcallum/King-laundry- becomes the copy of record. Appendix C now wraps lines instead of truncating them. Every future publish is committed first.
2	The emoji census was under-counted.	A Unicode scan of the live file finds 83 <i> tags, 75 of which contain an emoji (29 distinct), plus 49 loose symbol glyphs in prose (16 distinct; 23 are the "→" arrow). v1 said 47 and 19.	Phase A acceptance test becomes "Unicode scan returns zero", never a count. The icon sprite needs about 30 symbols, not 27 (Part 8).
3	laundrykings.com.au cannot be bought through Vercel today, and laundrykings.com is taken.	Vercel reports .com.au and .com "not available for purchase". DNS: laundrykings.com resolves to a third-party host; laundrykings.com.au has no record, which is consistent with either an unregistered name that Vercel does not sell, or a registered but unused name. UNVERIFIED	M2's headline outcome "site live at laundrykings.com.au" now depends on KEA-14 (an active ABN is required for any .com.au) and on a registrar that sells .com.au. Options in Part 16, decision D-09.
4	Laundry Lady's rate card is partly public, and it changes the +5% decision.	Search-indexed content of thelaundrylady.com.au/pricing (effective 27 July 2026): minimum \$70.00, pickup and delivery \$14.50, service fee \$2.20 recurring or \$5.50 one-off. Their 2024 price list: \$27.50 per 5 kg load, ironing from \$2.75 per item. Direct fetch of the page is blocked from this environment, so the per-load 2026 figure is UNVERIFIED .	Our \$32 load is already about 16% above their 2024 load price; a further +5% on line items is not needed to be "premium". The stronger position is the all-in floor: a one-off Laundry Lady booking appears to cost \$70 + \$14.50 + \$5.50 = \$90.00 versus our \$73.50 with delivery included, if their minimum excludes those fees. Part 3 and decision D-04.

#	Finding	Evidence	What changes
5	The Legends Club "save around \$28 every week" claim is true only at two loads.	At the v4.2 price: 2 loads (\$64.00) + delivery (\$13.50) = \$77.50 versus Solo \$49.00, saving \$28.50 (36.8%) VERIFIED . After the 19 September re-price (Solo \$63.70) the same comparison saves \$13.80 (17.8%), and at one load (\$45.50 ad hoc) a Solo member pays \$18.20 more.	Qualify the claim with its basis wherever it appears. Australian Consumer Law treats an unqualified comparison as a representation. Done: the home page now computes the figure from live pricing and reads "save around \$14 a week compared with two ad-hoc loads".
6	Red on navy fails contrast at 2.07:1.	Computed from the brand tokens (#CC2228 on #1A3480). The Bold Editorial direction puts red CTAs, crown and price figures on navy surfaces.	Red never sits directly on navy. Red on paper or white only; on navy, the CTA is white-filled with red text, or a white outline. Written into the design system (Part 8).
7	Linear is behind the dossier.	KEA-11 still reads "deploy laundrykings.com.au to Cloudflare Pages" while v1 says Vercel. No issue carries a due date. Every issue is assigned to Callum, including the four decisions v1 gives to Max. Milestone dates exist only in Linear: M1 15 Oct, M2 30 Nov, M3 31 Dec 2026.	Ten-minute hygiene pass (Part 6): retitle KEA-11, add due dates, add Max as a Linear member and reassign D-01, D-03, D-04 and D-07.

Everything else in one paragraph

Pricing, coverage and the data model are unchanged and were re-verified. The five root causes and fifteen defects from v1 are confirmed in the live file and six are added, mostly about scale discipline (57 distinct font sizes, 17 distinct radii) and about what the marketing site is missing for launch (no Open Graph tags, no structured data, nine aria-labels across 34 pages). The design direction stands; Part 8 turns it into a token-level specification a builder can execute without taste calls. Part 9 adds a Now/Next/Later feature roadmap built around three modern expectations a customer has of a pickup service in 2026: install it without an app store, see where the job is, and see proof of the work. Part 10 and Part 11 replace "get insurance" and "check Fair Work" with named policies, named tests and named owners. Part 16 closes with fourteen decisions, each with options and a recommendation.

RECOMMENDED SEQUENCE, NEXT TEN WORKING DAYS

1. **Today, Callum (19 Sep):** commit the v4.2 file to Git, run the pre-flight script in Appendix A, then execute Phase A exactly as the resume block in Part 17 states. One publish.
2. **Today, Callum (19 Sep):** Linear hygiene pass (Part 6) and run the auDA WHOIS check on laundrykings.com.au (Part 16, D-09).
3. **By 25 Sep, Max:** pricing decision D-04 with the competitor card in Part 3; company name, ABN and address for the footer (D-03); confirm the three Legends Club price points (D-07).
4. **By 26 Sep, both:** seed config/contact and config/payment (D-01) so the phone placeholder disappears and an invoice can be paid.
5. **By 30 Sep, Callum:** Phase B and Phase C publishes, imagery via Gamma, then close KEA-18.
6. **By 3 Oct, Max with adviser:** operator engagement brief (Part 10) covering contractor test, employee-like exposure and Super, before KEA-7 registers the first operator.

What changed from v1 to v2

Area	Change
Verification	Every quantitative claim in Parts 3, 4, 6 and 7 was re-run against the live artefact (3,586 lines, 236,498 bytes, SHA-256 in Appendix A), Linear and Vercel. A second, independent fact-check pass then re-derived every number and re-sourced every external fact; its register, with each correction it produced, is Appendix D.
Structure	Eleven parts became eighteen plus three appendices. New: executive summary, design system spec, feature roadmap, operator model, compliance register, competitor context expanded, risk register, launch checklist, KPI tree, decision log, information capture, verification report, sources.
Visuals	Architecture map, job state machine, defect-to-root-cause matrix, type and tracking specimen, colour contrast grid, competitor price ladder, unit-economics waterfall, roadmap Gantt, risk heat map, KPI tree, coverage cloud, ops swimlane. All static, all labelled in text, no reliance on colour alone.
Source code	Appendix C is verbatim and unabridged from the live artefact, wrapped not truncated, with a hash to prove it. The Git repository is now the copy of record.
Compliance	Named policies, named legislation, named thresholds, named owners. Fair Work "employee-like" exposure is now specific: the s15P criteria and the 17 Aug 2026 on-demand delivery order, with what does and does not apply.

PART 1

Where we left off

Nothing has been published. The live artefact is still v4.2. Phases A, B and C are built, verified and committed to the branch, and wait on a principal to publish. The census is independently re-verified. **SUPERSEDED** v2 said Phase A had not started.

Exact stopping point **VERIFIED**

Live artefact at v4.2, contract 0.2.52, capabilities `{"db": {}, "user": {}}`, 3,586 lines, 236,498 bytes. The artefact service confirms the stored declaration matches. Script block parses cleanly (`node --check`), 281 element IDs with no duplicates, all 120 `getElementById` targets exist.

Next action

Open a fresh chat, paste the resume block from Part 17 (it has changed since v1), say "go". Phase A begins. Before the first publish, commit the current file to Git so there is a copy of record that is not a PDF.

The one thing to know

The product is now functionally able to take a first paid job, which it was not before this build: the booking flow was dead in v4.2 and is proven working by a browser test (Appendix E). It is still not launchable in public: the footer carries a placeholder ABN, the phone number is a placeholder, payments are a pre-filled email rather than a checkout, and the design reads as a template. The next phase is craft and launch readiness, not features. The features in Part 9 are sequenced after that, deliberately.

Publish settings, never change

URL `claude.ai/artifact/SJihvya38JukdcAUL7JiFx` · capabilities `{"db": {}, "user": {}}` · favicon crown · contract 0.2.52. Do not add `mcp`; it blocks public sharing. Do not strip any AU compliance text. Keep every existing element ID; the script depends on them.

PART 2

The project, principals and brand

Laundrylegends is laundry pickup and delivery across Brisbane, Logan and South East Queensland. Independent operators run collection rounds in their own suburb under the Laundrylegends brand. Web-first, no app download. Tagline: "We Wash It Well."

Principals

Principal	Strengths and role on this venture	Owns
Callum Page	Build, go-to-market, AI, web design, speed to market, sales. Linear team lead and the only assignee on the board today.	Artefact, Git repository, Linear, Vercel, design and build decisions.
Max Jones	Structure, finance, long-range planning. Prior multi-site hospitality and laundry group operator.	Google Drive, pricing, entity and ABN, operator engagement model, adviser relationships.

Contact detail held in v1 (callumpageinfo@gmail.com) is personal; the working address for this venture is callum@maxcalprojects.com. Max's address is not recorded in any project document; see Part 18.

Brand tokens as shipped, with measured contrast VERIFIED

Ratios are WCAG 2.x relative luminance, computed from the hex values in the live file. The floor is 4.5:1 for body text, 3:1 for large text (18 pt regular or 14 pt bold and above) and for UI borders and icons.

Token	Hex	Role today	Contrast, measured	Verdict
 navy	#1A3480	Structure, headings, primary surfaces	11.37:1 on white	PASS
 navy-d	#12245C	Hero and footer surface	White text on it 14.7:1 (derived)	PASS
 navy-l	#2B4BAA	Links, hover	7.8:1 on white (derived)	PASS
 red	#CC2228	CTAs, crown, price figures	5.49:1 on white · white on red 5.49:1 · 2.07:1 on navy	FAIL ON NAVY
 ink	#141826	Primary text	17.7:1 on white (derived)	PASS
 body	#4A5266	Body copy	7.81:1 on white	PASS
 mute	#7C8598	Captions, helper text	3.71:1 on white	LARGE TEXT ONLY
 line	#E1E5EE	Card borders, dividers	1.26:1 on white · 1.19:1 on bg2 (v1 said 1.05)	FAIL
 ok / ok-bg	#0F7B4F / #E6F6EE	Status: good	4.74:1	PASS
 warn / warn-bg	#8A5A00 / #FFF6E0	Status: warning	5.51:1	PASS

Superseded on 19 September 2026: tokens now follow the logo artwork CORRECTED

The table above is the record of what v4.2 shipped. Sampling the supplied logo gives red #D84330 and navy #0C265F, and the repository copy now uses them: --navy #0C265F, --navy-d #071A45, --red-brand #D84330 (logo, hero slab, non-text marks; 4.41:1 on white so never small text) and --red #C43828 (the same hue deepened for buttons and small text; 5.33:1 on white, 4.81:1 on paper, 14.4:1 white on navy). Part 8 and Appendix E carry the detail.

Fonts: Archivo for headings (500 to 900), Inter for body (400 to 600), from Google Fonts. Australian English throughout. Every displayed price is AUD and GST-inclusive.

Voice and tone NEW IN V2

Say

Short declaratives. Price before adjective. "Booked. Collected Tuesday 9 to 12. Back Wednesday." Use "your operator", never "our driver". Use "we" for the brand promise and "your operator" for the person at the door.

Do not say

"Premium", "hassle-free", "best in Brisbane", any income claim for operators, any turnaround we cannot guarantee, any comparison without its basis. No exclamation marks. No emoji.

Compliance voice

State the limit plainly and once: "We are not a registered NDIS provider." "We do not hold AS/NZS 4146 accreditation, so we do not take clinical linen." The site already does this well; keep it.

Naming, filing and the artefact register NEW IN V2

Convergence over proliferation: this venture has exactly six artefacts. Anything not on this list needs a principal's approval before it is created.

Artefact	System	Proposed filing name	Owner
Website (marketing, app, ops)	Claude artefact + Git copy of record	LLG-SYS09-01_Website_v4.2	Callum
This dossier	PDF in Drive GOV00 + Git	LLG-GOV00-01_Complete Dossier_v2	Callum
Master Blueprint	Google Doc, Drive GOV00	LLG-GOV00-02_Master Blueprint_v1	Max
Ops Runbook	Google Doc, Drive OPS03	LLG-OPS03-01_Ops Runbook_v1	Max
Build Log	Google Doc, Drive SYS09	LLG-SYS09-02_Build Log_v1	Callum
Work tracker	Linear project + 3 milestones	n/a (system of record for tasks)	Callum

The prefix LLG is an ASSUMPTION ; the venture prefix is set in the Maxcal artefact register, which was not available in this session. Codes follow the Maxcal filing standard: GOV00, FIN01, LEG02, OPS03, PRD04, CUS05, MKT06, SUP07, PPL08, SYS09, Archive99. One live version; superseded versions move to Archive99. This v2 supersedes v1; move v1 to Archive99 on filing.

PART 3

Pricing, competitor rate card, unit economics, coverage and booking

Source of truth for price is the database document `config/pricing`. These figures were re-read from the live file and are unchanged from v1. What is new is the competitor card with dates and sources, a parametric unit-economics model, and a qualifier on the Legends Club savings claim.

Rate card, AUD, GST-inclusive VERIFIED

Item		Price	Item		Price
Wash and fold, per load (about 5 kg)		\$32.00	Dry clean: jacket / dress / suit		\$18.50 / \$16.50 / \$32.00
Iron, per item		\$3.50	Bulk: doona / king / curtain		\$45.00 / \$75.00 / \$38.00
Trouser press		\$4.50	Large linen: sheet set / blanket or quilt cover / rug, per item (replaces ironing, 19 Sep 2026)		\$24.00 / \$32.00 / \$42.00
Collection and return		\$13.50	Legends Club Solo (about 1 to 2 loads), per week — \$49.00 + 30%, 19 Sep 2026		\$63.70
Minimum per collection (one-off bookings)		\$73.50	Legends Club Household (about 2 to 4 loads), per week — \$69.00 + 30%		\$89.70
Eco or sensitive-skin add-on, per load		\$3.50	Legends Club Full House (about 4 to 6 loads), per week — \$89.00 + 30%		\$115.70
			Legends Club members		exempt from minimum

Invoice maths in the ops portal: loads = $\text{ceil}(\text{kg} \div 5) \times \32.00 ; large linen = items $\times \$24.00$ at the sheet-set rate, with blankets (+\$8) and rugs (+\$18) entered through the adjustment field until the wizard takes separate counts; plus \$13.50 delivery; floor at \$73.50; a manual adjustment field. The minimum was set at Laundry Lady's \$70 plus 5% on 18 September 2026.

Legends Club savings claim: add the basis NEW IN V2

Two ad-hoc loads a week cost \$64.00 + \$13.50 = \$77.50. At the current Solo price of \$63.70 the saving is \$13.80 a week, 17.8%; at one load the ad-hoc price is \$45.50, so Solo costs \$18.20 more. Under the Australian Consumer Law an unqualified comparison is a representation the customer can rely on, so the copy carries its basis: "save around \$14 a week compared with two ad-hoc loads". The figure is computed from `config/pricing` at render time and rounded to whole dollars, so a future re-price cannot leave a stale number in the sentence. Done 19 Sep 2026 (Appendix E).

Competitor rate card: The Laundry Lady NEW IN V2

Direct fetch of thelaundrylady.com.au is blocked from this build environment. The figures below come from search-indexed text of their pricing page and their published 2024 customer price list; each is dated. Max to confirm against the live page before D-04 is decided.

Component	Laundry Lady	As at	Laundrylegends	Read
Wash, dry and fold, per 5 kg load	\$27.50	2024 price list 2026 FIGURE UNVERIFIED	\$32.00	We are about 16% above their 2024 load price already.

Component	Laundry Lady	As at	Laundrylegends	Read
Minimum per service	\$70.00	Pricing page, effective 27 Jul 2026	\$73.50	Our minimum is their minimum plus 5%.
Pickup and delivery	\$14.50	Pricing page, effective 27 Jul 2026 (\$12.50 in 2024)	\$13.50	We are \$1.00 cheaper on delivery.
Service fee, recurring / one-off	\$2.20 / \$5.50	Pricing page, effective 27 Jul 2026 (\$2.00 in 2024)	none	We charge no booking or service fee. Say so.
Ironing, per item	from \$2.75	2024 price list (range to \$14.74 for complex items)	not offered	Ironing was withdrawn on 19 Sep 2026; Laundrylegends offers large linen per item instead (sheet set \$24, blanket \$32, rug \$42). No comparable Laundry Lady figure found.
Eco liquid, per load	+\$3.00	2024 price list	+\$3.50	Parity.
Card fee	2.3% "included"	2024 price list note	none stated	From 1 Oct 2026 the Reserve Bank's reforms remove card surcharges on eftpos, Visa and Mastercard for all Australian merchants, so no one can pass this fee on (Appendix B).

One-off booking floor, all-in, AUD inc. GST

Laundry Lady figure assumes the \$70 minimum excludes delivery and the one-off service fee (unverified). Laundrylegends minimum includes delivery.

Figure 3.1. The comparison that matters to a first-time customer is the all-in floor, not the per-load rate. Segment widths are to scale; the Laundry Lady structure is read from their pricing page and needs Max's confirmation.

RECOMMENDATION ON THE +5% DECISION (D-04)

Keep line-item prices where they are. Do not apply +5% across the card. Reposition the comparison from "minimum" to "all-in floor with delivery included and no service fee". Confirm two facts first: Laundry Lady's 2026 per-load price, and whether their \$70 minimum includes the delivery fee. Owner Max, due 25 Sep 2026. Options with reasoning are in Part 16.

Unit economics per booking: parametric model ASSUMPTION NEW IN V2

No operator payout has been set, so no margin figure exists. The model below is a formula with its variables named; the illustrative column uses a two-load, no-ironing, card-paid, one-off booking. Change the variables in the Ops Sheet and the row values follow. None of the illustrative figures is a forecast.

Line	Formula or basis	Illustrative, 2 loads	Status
Revenue, inc. GST	$2 \times \$32.00 + \13.50	\$77.50	RATE CARD
GST remitted	$\text{Revenue} \div 11$	\$7.05	STATUTORY

Line	Formula or basis	Illustrative, 2 loads	Status
Revenue, ex GST	Revenue – GST	\$70.45	
Card processing	Stripe AU domestic online 1.7% + \$0.30 (1.65% + \$0.30 from 1 Oct 2026); GST on the fee is an input credit	\$1.62 (then \$1.58)	STRIPE PRICING PAGE
Operator payout	Variable P = share of ex-GST revenue, or a fixed fee per load plus a per-collection fee. Not set. Options in Part 10.	P	VARIABLE
Consumables and utilities	Variable C per load (detergent, water, power, bags, tags). Borne by the operator under the current model, so C sits inside P unless the brand supplies consumables.	C × 2	VARIABLE
Platform cost per booking	Variable T = (hosting + SMS + email + payments tooling monthly) ÷ bookings per month. Small at volume; material under 50 bookings a month.	T	VARIABLE
Contribution to brand	\$70.45 – \$1.62 – P – T	\$68.83 – P – T	

Where \$77.50 goes, before operator payout (illustrative, two loads)

Remaining for operator payout P, platform cost T and brand contribution: **\$68.83**

Figure 3.2. The only two deductions that are fixed today are GST and card processing. Everything else is a decision (Part 10, Part 16 D-12).

Coverage VERIFIED

Sixteen live suburbs and fourteen opening next, held in code as LIVE_PC and S00N_PC, grouped by PC_REGION. Postcode 4131 was corrected from Loganholme to Meadowbrook on 19 Sep (KEA-10, done).

Live (16)

Logan 4131 Meadowbrook 4127 Springwood

4128 Shailer Park 4129 Loganholme

4130 Cornubia 4132 Marsden 4133 Waterford

4207 Beenleigh 4118 Browns Plains

Brisbane south 4119 Kuraby 4109 Sunnybank

4122 Mansfield 4121 Holland Park

4120 Greenslopes 4151 Coorparoo

4152 Camp Hill

Opening next (14)

Inner city 4000 Brisbane CBD 4101 South Brisbane

4102 Woolloongabba 4169 Kangaroo Point

4170 Morningside 4171 Balmoral

North 4030 Windsor 4031 Kedron

4032 Chermside 4034 Aspley 4508 North Lakes

4509 Mango Hill

West 4066 Toowong 4068 Indooroopilly

Region assignment above is editorial for this dossier; the code's PC_REGION grouping is the source of truth for the coverage page. Phase B renders coverage as this grouped cloud instead of sixteen identical chips (defect D9).

Booking configuration

VERIFIED

Setting	Value	Where
Lead time	1 day	config/booking, live-editable; the wizard re-renders on change via a snapshot listener
Horizon	42 days	
Windows	9 am to 12 pm · 12 pm to 3 pm · 4 pm to 7 pm	
Capacity per window	none (unlimited)	Not modelled. Part 9 proposes a per-round cap.

PART 4

Architecture, data model and the production target

One HTML file, 34 hash-routed sections, one script block of 77,542 characters, no build step, no server. That is a strength for speed and a constraint for launch. This part records both, and names the production shape the roadmap moves toward.

Figure 4.1. Three surfaces, one file, one database. Every page is a `<section class="page">`; 34 counted in the live file.

Job lifecycle VERIFIED

Cancellation is reachable from requested and assigned. Proposed additions (Part 9): "in_progress" between collected and invoiced, "returned" before complete.

Figure 4.2. Five live states and one terminal exception. Two proposed states give the customer the two moments they most want to see: "your laundry is being washed" and "it is back at your door".

Ops workflow today, no server VERIFIED

- Customer books in the wizard; a document is written to `bookings_inbox`.
- Ops opens `#/ops`, assigns an operator from `operators`. "Email customer" opens a pre-filled Gmail draft; "Add to Calendar" opens a pre-filled Google Calendar event.
- Operator collects; ops marks collected.
- Ops opens `#/opsinv`, enters weight and, for a large-linen job, the item count; the invoice calculates with the minimum and any manual adjustment; a pre-filled invoice email opens; ops confirms and later marks paid.

Payment today is whatever `config/payment` says: PayID or BSB text and a Stripe payment link pasted into the email. That is workable for the first jobs and is not a checkout. KEA-13 replaces it.

Security and access model VERIFIED

Concern	Today	Before public launch
Ops gating	Ops pages render only when <code>CAN_EDIT</code> is true, derived from the artefact's editor status.	Adequate while ops is the two principals. Not adequate once operators need their own view (KEA-16).

Concern	Today	Before public launch
Customer identity	Artefact user capability; a signed-in viewer gets a persisted private store, an anonymous viewer gets a session-only store with a visible notice.	Public visitors are anonymous, so bookings from the public site land in the shared inbox without an authenticated owner. Fine for M1, not for M2.
Personal information	Names, addresses, phone, email and care notes in the shared inbox are readable by any editor.	Least-privilege rules on a real backend; retention rule already written in the privacy draft (five years, applications twelve months).
Payment data	None stored. Correct.	Keep it that way: Stripe Checkout hosted page, never card fields on our page.

Production target for M2 NEW IN V2

The dossier v1 recorded the choice of Vercel over Cloudflare Pages; Linear still says Cloudflare (Part 6). The shape below is the smallest production system that keeps the single-file front end intact, which protects the convergence rule and the build velocity.

Layer	Choice	Why this, why not the alternative	Linear
Hosting and functions	Vercel (static file + serverless functions)	Already connected. Functions give us a place for Stripe webhooks and email sends without a server to run. Cloudflare Pages would work equally; the decision is made, so Linear should follow it.	KEA-11
Database and auth	Supabase (Postgres + Auth + Row Level Security) RECOMMENDED	Firestore is the closer match to the current document model, so migration is easier there. Supabase wins on SQL for finance reporting, on row-level rules for operators, and on Australian region hosting (Sydney). Either replaces the artefact db and user capabilities. Decision D-10.	KEA-11, KEA-16
Payments	Stripe Checkout + Stripe Billing for Legends Club	Hosted checkout, Apple Pay and Google Pay without extra integration, subscriptions with pause and skip built in. 1.7% + \$0.30 domestic, dropping to 1.65% from 1 Oct 2026.	KEA-13
Email	Resend (transactional)	Templates for booked, assigned, collected, invoiced, paid, returned. Postmark is the equivalent; pick one and stop.	KEA-12
SMS	Twilio or MessageMedia (AU sender ID)	Only for the two moments customers act on: "operator is 15 minutes away" and "invoice ready". Spam Act consent captured at booking (Part 11).	new
Domain and DNS	See D-09	.com.au requires an active ABN under auDA rules; .au direct requires Australian presence only.	KEA-11, KEA-14

PART 5

What has been shipped (all live in v4.2)

Session	Delivered
1 · 18 Sep · Customer app	Full app layer on top of the original marketing artefact (owned by another org member; republished as a new artefact owned by Callum). Tab bar, 3-step wizard, bookings, messages, threads, settings tree of eight sub-pages, profile switcher, per-user private store.
2 · 18 Sep · Ops backend, v2	Ops dashboard, job detail, operator management, invoice generator. Wizard step 1 rebuilt to the Laundry Lady reference (screenshot 9). Bookings page: filter chips and rich cards with Support and Rebook.
3 · 18 Sep · Pricing and first UX pass	Minimum \$73.50. Hero simplified. Phone placeholder hidden until <code>config/contact.phone</code> exists. Coverage legend and region grouping. Nav de-duplicated.
4 · 18 to 19 Sep · Connectors and Home v4	Linear project, three milestones, issues KEA-5 to KEA-17. Drive filing and three Google Docs. Gamma 10-slide deck. Home v4 in eight bands: two-column hero with SVG illustration and live price teaser, trust band second, navy step circles, navy middle service card with per-card CTAs, Legends Club savings box, two-column coverage with live chips, estimator, red early-adopter band, segment doors. Skeleton shimmer on ops. Postcode 4131 fixed. Services CTAs. Mobile fixes. Closed KEA-5, 8, 9, 10. Status update posted, On Track.
5 · 19 Sep · This revision	No publish. Live file read in full and hashed, census re-run, Linear and Vercel cross-checked, competitor and compliance research, Git repository initialised as copy of record, dossier v2.

What the live file contains that v1 did not list VERIFIED

- A written customer guarantee: re-wash within 48 hours, delivery fee refunded on late return, damage and loss claims within 7 days with a 5-business-day investigation, settlement at current item value, declared exclusions (missing labels, pre-existing damage, undeclared colour-bleed risk, pocket contents, undeclared items over \$250), and an explicit statement that ACL rights are not limited.
- Privacy Policy and Terms of Service marked "Draft for legal review, not yet in force" with a blank date of effect. Both must be reviewed by a solicitor before M2 (Part 11).
- Operator page states plainly that no income figures are published because there is no genuine earnings data yet. Keep this; it is the right posture under the ACL and the right posture for recruiting.
- Dry cleaning is described as via partner cleaners, PERC-free. This is a supplier claim; hold the partner's confirmation on file (Part 11).

PART 6

Linear state, cross-checked live

Read from Linear on 19 Sep 2026 (AEST). Project "Laundrylegends — Full Platform Build", lead Callum, target 31 Dec 2026, status Backlog. Fourteen issues, four done. Three milestones with dates that v1 did not record.

ID	Title in Linear	Status	Priority	Milestone	Blocker or note (v2)
KEA-5	Home page redesign, full 8-band rebuild	DONE	Urgent	M1	Completed 18 Sep.
KEA-6	Seed config docs: contact, payment, pricing	BACKLOG	Urgent	M1	Both principals. Phone, email, PayID or BSB, Stripe link. Blocks the first invoice being payable. No due date set; propose 26 Sep.
KEA-7	Register first operator in ops portal	BACKLOG	Urgent	M1	Needs a real ABN and the engagement brief from Part 10 first. Propose 3 Oct.
KEA-8	App loading states, skeleton screens	DONE	High	M1	Ops only; customer lists still render without skeletons. Acceptable.
KEA-9	Mobile audit 390/393 px	DONE	High	M1	Done by CSS analysis; the real-device screenshots that followed produced KEA-18.
KEA-10	Postcode data, 4131 label	DONE	High	M1	Verified in the live file.
KEA-11	Domain: deploy laundrylegends.com.au to Cloudflare Pages	BACKLOG	Urgent	M2	STALE v1 chose Vercel. Also depends on KEA-14 (ABN for .com.au) and on the domain finding (D-09). Retitle.
KEA-12	Email automation, Resend or Postmark via Vercel function	BACKLOG	High	M2	Needs KEA-11.
KEA-13	Stripe Checkout, payment intent endpoint and webhook	BACKLOG	High	M2	Needs a Stripe account in the trading entity's name, so needs D-03.
KEA-14	Footer: publish ABN, company name, address	BACKLOG	High	M2	Placeholder text is live and public today. Owner should be Max. Also gates .com.au and Stripe.
KEA-15	Photography: hero, operator portrait, how-it-works set	BACKLOG	High	M2	Gamma generate_image can placeholder in Phase B; real photography of a real operator for M2.
KEA-16	Operator mobile portal, #/operator field view	BACKLOG	Medium	M3	Needs an auth provider (D-10).
KEA-17	SEO: per-page meta, structured data, sitemap	BACKLOG	Medium	M3	Live file has zero Open Graph tags and zero JSON-LD (verified). Part of this can ship before the domain: the tags are in the file, not the DNS.
KEA-18	Design overhaul: device audit fixes + Bold Editorial (Phase A/B/C)	BACKLOG	Urgent	M1	This dossier is its specification. Propose due 30 Sep.

Milestones

VERIFIED

Milestone	Target	Progress	Definition of done, as written in Linear
M1 First Job Operational	15 Oct 2026	57%	Home redesigned, ops portal working, config seeded with real contact and payment details, first operator registered, first booking confirmed and invoiced.
M2 Public Launch	30 Nov 2026	0%	Site live at laundrylegends.com.au. Automated email confirmations. Stripe. SMS notifications. Real photography. Google Business Profile live. ABN published. 5+ operator reviews collected.
M3 Growth Platform	31 Dec 2026	0%	Operator mobile portal. Legends Club subscription management. SEO. Analytics. HubSpot CRM. 3+ rounds operational. 50+ bookings a month.

LINEAR HYGIENE PASS, CALLUM, 19 SEP 2026, TEN MINUTES

1. Retitle KEA-11 to "Domain and hosting: Vercel deploy + domain decision (D-09)". Add a dependency on KEA-14.

2. Add due dates: KEA-18 30 Sep · KEA-6 26 Sep · KEA-7 3 Oct · KEA-14 25 Sep · KEA-11, 12, 13, 15 14 Nov · KEA-16, 17 12 Dec.

3. Invite Max to the Linear workspace and assign KEA-14 and the decisions D-03, D-04, D-07 and D-12 to Max.

4. Create KEA-19 "Pre-flight script in CI: node --check, dup-ID, 34 sections, getElementById, zero emoji" (Appendix A supplies the script). KEA-20 "Legends Club claim qualifier". KEA-21 "Open Graph + JSON-LD in file (pre-domain half of KEA-17)". KEA-22 "Operator engagement brief to adviser" (owner Max). KEA-23 "Insurance quotes: the four policies in Part 10" (owner Max).

5. Post a status update: On Track for M1 only if D-01 and D-03 land by 26 Sep; otherwise At Risk. Say which.

PART 7

Design audit, re-verified against the live file

v1's fifteen defects came from real-device screenshots on 19 Sep. v2 re-ran the census by script on the live artefact file rather than on the PDF, confirmed the five root causes, corrected two counts, and added six defects. Appendix A has the method.

Census: v1 versus v2

Measure	v1	v2 (live file)	Note
File size	3,586 lines · 236,498 B	3,586 · 236,498	VERIFIED byte-exact
Page sections	34	34	VERIFIED
Emoji inside <i> tags	27 distinct · 47 total	29 distinct · 75 total (of 83 <i>)	CORRECTED Most frequent: truck 6, basket 5, shirt 5, receipt 5, person 4, chat 4, pin 4, lock 4, envelope 4, calendar 4 + 3.
Loose symbol glyphs in prose	19 distinct	16 distinct · 49 total	REFINED 23 are "→", 6 are "✓". Regex boundaries differ; the acceptance test is zero, not a count.
letter-spacing values	13	13	VERIFIED -.035 – .03 -.025 – .02 · .01 · .01 .02 .03 .06 .07 .09 .1 .14 em
Legends Club selected state	rgba(204,34,40,.13) over navy	same	VERIFIED renders indigo
money()	always .00	same	VERIFIED '\$' + Number(n).toFixed(2)
Footer links	26	26	VERIFIED
Mobile menu items (#mob)	15	15 links + close button	VERIFIED no grouping, no CTA
Footer link contrast	3.2:1	5.3:1 (white at 50% on #0C1430)	CORRECTED passes 4.5:1; footer background is not a token
Card border contrast (line on bg2)	1.05:1	1.19:1 (1.26:1 on white)	CORRECTED same verdict: invisible
Distinct font-size values	—	57 (all rem)	NEW confirms R1
Distinct border-radius values	—	17 (incl. 3 tokens)	NEW confirms R1
Open Graph tags · JSON-LD	—	0 · 0	NEW KEA-17
aria-label · · inline <svg>	—	9 · 0 · 16	NEW icon-only buttons lack names
prefers-reduced-motion · :focus-visible	—	1 · 1	Present once each; extend in Phase C

Measure	v1	v2 (live file)	Note
Script syntax · duplicate IDs · missing getElementByld targets	—	clean · 0 · 0	VERIFIED

Five root causes, confirmed

Root	Cause	Evidence in live file
R1	No optical scale	13 tracking values, 57 font sizes, 17 radii, one border weight everywhere. Nothing changes with size, so large type looks cramped and small type looks loose.
R2	Transparency used for state	.p lan . on lays 13% red over navy and produces indigo. Any rgba over a coloured surface will drift off-brand.
R3	Borders below 1.3:1	Cards float without edges; the eye reads the shadow instead, which is why the page feels like a template.
R4	Flat lists where hierarchy is needed	Footer 26 equal links, 15-item mobile menu, 16 identical suburb chips, filter chips all the same weight.
R5	Emoji as icon system	75 in tags, 49 loose. Renders as iOS or Android colour emoji, different on each device, wrong optical size, no stroke consistency.

Defects by root cause and phase

	Phase A · Foundation	Phase B · Marketing	Phase C · App
R1 Optical scale	D4 · D7 · D17 · D18	D14	D10
R2 Transparency	D3 · D16		
R3 Borders	D15 · D20		
R4 Hierarchy		D8 · D9 · D11 · D12	D5 · D6
R5 Emoji	D2		D1 · D19

Not in matrix: D13 (footer text, Max) and D21 (SEO, Phase B). Darker cells hold two or more defects.

Figure 7.1. Phase A fixes the tokens, so nine defects fall out of four root causes at once. Phase B is hierarchy. Phase C is the app shell.

Defects, 21 in total

ID	Defect	Root	Phase	Acceptance test
D1	Tab bar mixes glyph and colour emoji; renders as iOS emoji. Worst single defect.	R5	C	Tab bar uses 5 sprite icons; zero emoji in file.
D2	Box emoji in wizard "Approximate quantity" header.	R5	A	Sprite icon at 24 px.
D3	Selected Legends Club plan renders purple.	R2	A	Computed background equals #2A2F6B exactly.
D4	Fixed tracking: "Get your exact number." jams at 24 px.	R1	A	Tracking tokens by size; no ad-hoc letter-spacing remains.
D5	Stepper: minus and plus at opposite edges, value floating.	R4	C	Stepper max-width 140 px, three elements touching.
D6	"↪ Continue": arrow before verb.	R4	C	Verb first, arrow icon after, on every primary button.

ID	Defect	Root	Phase	Acceptance test
D7	"\$49.00": strip .00 on whole dollars; keep \$73.50.	R1	A	money(49) returns "\$49"; money(73.5) returns "\$73.50"; tabular numerals on all prices.
D8	Coverage "Check" button full-width; reads as page CTA.	R4	B	Inline with the input, secondary style.
D9	16 identical suburb chips, about 600 px tall, no scan order.	R4	B	Grouped by region, two columns, under 320 px on a 390 px viewport.
D10	Wizard card header two-column wraps badly on mobile.	R1	C	Stacks below 480 px.
D11	Mobile menu: 15 flat items, no groups, no CTA.	R4	B	5 primary + "More" + one red CTA.
D12	Footer: 26 links, about 1,400 px tall on mobile. Link text is white at 50% on #0C1430 and measures 5.3:1, so v1's "3.2:1" is CORRECTED : contrast passes; the defect is volume and hierarchy. The footer background #0C1430 is not a brand token.	R4	B	10 to 12 links, two columns; footer background moves to navy-d #071A45; text stays at 4.5:1 or better.
D13	Placeholder ABN text is live and public.	—	B	Real entity name, ABN and address from Max (D-03); never invented.
D14	Nav red CTA outweighs the logo.	R1	B	CTA weight down on mobile; logo is the heaviest element in the bar.
D15	Card borders at about 1.2:1, invisible.	R3	A	Borders tonal or 1 px rgba(20,24,38,.08) with drop shadow removed; or a surface step of at least 1.3:1.
D16	NEW Red on navy fails at 2.07:1 (CTA, crown, price figures on navy hero and footer).	R2	A	No red text or red fill directly on navy. On navy, CTAs are white-filled with red text or white-outlined.
D17	NEW 57 distinct font sizes.	R1	A	Eight-step scale only; a scan finds no font-size outside the tokens.
D18	NEW 17 distinct radii.	R1	A	Three tokens (6, 12, 18 px) plus 999 px for pills and 50% for avatars.
D19	NEW Icon-only controls without accessible names (9 aria-labels across 34 pages).	R5	C	Every icon-only button has an aria-label; every sprite use has role="img" or aria-hidden with adjacent text.
D20	NEW Muted text (#7C8598) at 3.71:1 used for helper copy under 14 px.	R3	A	Muted darkened to at least 4.5:1 (#6B7386 measures 4.75:1) or restricted to 14 px bold and above.

ID	Defect	Root	Phase	Acceptance test
D21	NEW No Open Graph tags, no JSON-LD, one generic title for 34 pages.	—	B	og:title, og:description, og:image (1200 × 630 from Gamma), LocalBusiness + Service + FAQPage JSON-LD; per-route title swap in the router.

PART 8

Design system specification: Bold Editorial

Confident, graphic, unapologetically Laundrylegends. Own the crown, own the red. Differentiate hard from Laundry Lady's soft pink domestic look. Polish benchmark is Rinse (US). v1 gave the direction; this part gives the tokens, so a build session makes no taste calls.

Type scale, 1.25 major third, 8 steps

Exact ratio from a 13 px base gives 13 / 16.25 / 20.3 / 25.4 / 31.7 / 39.7 / 49.6 / 62.0. The tokens round to whole pixels and round the top four down (31, 39, 49, 61) so headings sit slightly tighter than the pure ratio; this is a deliberate optical choice carried over from v1, not an arithmetic error.

Token	Size	Tracking	Weight	Leading	Use
--fs-display	61 px · clamp(2.8rem, 6.5vw, 5.4rem) for H1	-0.04em	900	1.0	Home hero only
--fs-1	49 px	-0.03em	900	1.05	Page H1
--fs-2	39 px	-0.03em	800	1.1	Section heads, how-it-works numerals at 4rem
--fs-3	31 px	-0.02em	800	1.15	Card titles on home, price figures
--fs-4	25 px	-0.02em	700	1.2	H2 in app, wizard step title
--fs-5	20 px	-0.01em	700	1.3	H3, tab labels on tablet
--fs-body	16 px	0	400/500	1.55	All body copy; never below 16 px in inputs (iOS zoom)
--fs-micro	13 px	+0.01em · caps +0.08em	500/600	1.4	Captions, eyebrows, chips, tab labels

Figure 8.1. Tracking loosens as size drops. Rendered at 60% of screen size (1 px = 0.6 pt here) so the largest step fits the print column; ratios between steps are exact. Weight 900 is Archivo Black-equivalent and is reserved for the two largest steps.

Colour roles and state colours

Role	Token	Rule
Paper surface (60%+ of any page)	--paper #F6F3EE	Replaces #EEF0F8 and most of bg2. Warm, not blue-grey. Cards on paper are white; cards on white are paper. No hairline needed when the surface steps.
Navy structure	--navy-d #071A45 page · --navy #0C265F raised · - -navy-sel #2A2F6B selected	Three solid tints, never rgba. Hero and footer sit on navy-d. Selected plan card is #2A2F6B solid (D3).
Red accent (under 5% of surface)	--red #C43828 text and CTAs · --red-brand #D84330 logo and display slabs · --red-d #A82E20 hover	Both reds are the logo's hue (sampled #D84330). The true logo red is 4.41:1 on white, so it is reserved for the logo, display-size text and non-text marks; --red is the same hue deepened to clear AA for small text and white-on-red buttons (5.33:1 on white, 4.81:1 on paper). One full-bleed slab per page at most. Never directly on navy (D16).
CTA on navy	white fill, red text	White #FFFFFF button with red text gives 5.33:1; or white outline with white text at 14.4:1 on navy. Hover: paper fill.
Hover and selected on navy	--navy-hov #23407A · --navy-sel #2A2F6B	Solid. Focus ring is 2 px #FFFFFF offset 2 px on navy, 2 px #0C265F on light surfaces.
Elevation and motion	--e-hov · --e-hov-dk · --e-press · - -e-sheet · --e-toast · --lift -3px · --ease · --ease-spring · --tr .18s · --tr-page .36s	Depth is an interaction state, never a resting one (D15): a lift and soft shadow on hover, a scale-down on press. One easing curve for everything that moves, a spring only for toggles, steppers and the FAQ icon. Route, wizard-step and menu entrances share one fade-and-slide; reduced motion zeroes the page transition and the global rule kills the rest. Added 19 Sep 2026, Appendix E.
Text	--ink #141826 · --body #4A5266 · --mute #6B7386	Mute darkened from #7C8598 to #6B7386, 4.75:1 on white (D20). On navy-d: white at 14.7:1, or #C9D2F2 for secondary at 9.8:1.
Borders	1px rgba(20,24,38,.08) on white · none on paper	Or a surface step. Drop shadows removed except the sticky tab bar and open sheets.

Role	Token	Rule
Status	ok #0F7B4F/#E6F6EE · warn #8A5A00/#FFF6E0 · bad #A81B20/#FFF1F1	Always with an icon and a word. Never colour alone. Never reused as decoration.

Colour ratio warning, restated

Navy + red + paper reads "sporting club" the moment red exceeds about 5% of the visible surface or sits on navy. Paper carries the page. Navy gives structure. Red is a signal. If a screen has more than one red element above the fold besides the crown, one of them is wrong.

Spacing, radius, elevation, motion

Spacing, 4 px base

--sp-1 4 · --sp-2 8 · --sp-3 12 · --sp-4 16 · --sp-5 24 · --sp-6 32 · --sp-7 48 · --sp-8 64 · --sp-9 96

Section rhythm clamp(3.5rem, 7vw, 5.5rem) stays. Card padding is sp-5 on desktop, sp-4 on mobile. Nothing uses a value outside this list.

Radius, three tokens

--r 6 (inputs, chips) · --r2 12 (cards) · --r3 18 (sheets, hero panels) · 999 px pills · 50% avatars

Elevation

Level 0 surface step only. Level 1 sticky bars: 0 1px 0 rgba(20,24,38,.08). Level 2 sheets and menus: 0 18px 50px rgba(20,24,38,.16). No shadow on cards.

Motion

Fade-up 12 px over 320 ms ease-out on scroll entry, once per element. Tab switch 180 ms. Everything inside @media (prefers-reduced-motion: no-preference); the reduced-motion branch shows the final state instantly.

Icon sprite, one set, 24 px grid, 1.75 stroke

One inline <svg> with <symbol> elements at the top of the body; each use is <svg class="ic"><use href="#ic-truck"/></svg>. Stroke uses currentColor so icons inherit text colour and pass wherever the text passes. The list below is derived from the emoji census and covers every current use plus the tab bar.

Replaces	Symbol IDs (30)
Tab bar (5)	ic-home · ic-bookings (list) · ic-book (plus in circle) · ic-messages (chat) · ic-settings (sliders)
Service and flow (10)	ic-truck · ic-basket · ic-shirt · ic-iron · ic-hanger · ic-scale · ic-box · ic-calendar · ic-clock · ic-pin
Account and money (8)	ic-user · ic-users · ic-receipt · ic-card · ic-bank · ic-doc · ic-lock · ic-shield
System (7)	ic-check · ic-x · ic-arrow-right · ic-refresh · ic-info · ic-alert · ic-help

Add ic-crown as the one brand mark, drawn at 24 and 48 px. Icons are always accompanied by a text label or an aria-label (D19). Optical sizes: 20 px in chips and inputs, 24 px default, 28 px in the tab bar.

Layout patterns for Phase B

Band	Pattern
Hero	Asymmetric 7/5 on navy-d. Left: display H1, one sentence, one white CTA, price teaser in tabular numerals. Right: photo slot 4:5 with the crown as a small white mark, not red. One eyebrow on the whole page, here.
Trust masthead	One navy strip under the hero: GST-inclusive pricing, written guarantee, screened operators, live in 16 suburbs. Four items, icons, no cards.
How it works	Horizontal timeline on paper, three steps, 4rem numerals in navy, one line each, one photo slot per step (Gamma placeholders now, real photos for M2).

Band	Pattern
Services	The one card grid on the page. Three cards, middle card navy with white CTA. Six services become three doors plus a "see all services" link.
Legends Club	Full-bleed red slab, white type, the one red slab on the page. Savings box carries the two-load basis (Part 3).
Coverage	Typographic suburb cloud grouped by region on paper; postcode input with an inline secondary Check button (D8, D9).
Segment doors	Households · Businesses · Become an operator. Three paper tiles, navy type, arrow icons.
Footer	Navy-d. Column 1 crown and one line; column 2 ten to twelve links in two groups; row 3 entity name, ABN, address (D13), compliance line, GST statement. Text #C9D2F2 or white only.

Imagery brief NEW IN V2

Every strong competitor shows a human and a price in three seconds. We show a price. Phase B adds the human with generated placeholders; M2 replaces them with a real operator, photographed once, half a day, in their own suburb. Brief for both:

- **Subject:** one operator, mid-thirties to fifties, in a plain navy tee, at a real Logan or Brisbane-south front door, handing over a folded stack in a Laundrylegends bag. Daylight, overcast preferred. No studio, no stock smile.
- **Crop and ratio:** hero 4:5 portrait and 16:9 landscape variants; how-it-works three squares (book on phone, collection at door, folded return); OG card 1200 × 630 with paper background, crown, and the line "Laundry collected, washed and returned. From \$32 a load."
- **Colour grade:** warm neutral to sit on paper; no pink, no teal. Red appears only as the bag tag.
- **Consent:** model release signed by the operator, filed PPL08, before publication.

PART 9

Feature recommendations: Now, Next, Later

Three things a customer expects from a pickup service in 2026 that the site does not yet do: install without an app store, see where the job is, and see proof of the work. Everything below is sequenced after Phase A to C and inside the existing single-file architecture wherever possible. Each item names the outcome it moves, the owner and the milestone.

Now: inside Phase B and C, before M1 (by 15 Oct 2026)

Feature	What and how	Outcome moved	Owner
Installable web app (PWA)	Add a web manifest (name, crown icons at 192 and 512 px, theme colour navy-d, display standalone, start_url #/app) and a minimal service worker that caches the shell. Show an "Add Laundrylegends to your home screen" sheet after the first booking, once, dismissible. This is the "no app download" promise made literal.	Repeat-booking rate; return visits to #/app	Callum · Phase C
Job status timeline	Replace the status word on the booking card with a five-dot timeline: Booked, Assigned, Collected, Washing, Returned. Two new states ("in_progress", "returned") added to the lifecycle; ops taps them in #/opsbook. Each dot carries its timestamp.	Support messages per booking (down); NPS	Callum · Phase C
Photo proof at collection and return	Operator attaches one photo of the bag at the door on collection and one of the folded return. Stored against the booking; shown on the timeline. Doubles as the evidence record the guarantee's damage and loss process needs.	Damage disputes resolved within 5 business days; refund rate	Callum · Phase C (upload via the artefact store now, object storage at M2)
Weight estimator, visual	The estimator exists. Add a "what a load looks like" strip: about 5 kg equals a full kitchen-size basket, roughly 25 tees or 8 towels. Sets expectation before weighing, reduces invoice surprise.	Invoice queries per booking	Callum · Phase B
Legends Club claim qualifier	"Save around \$28 a week compared with two ad-hoc loads" everywhere the claim appears (Part 3).	ACL exposure removed	Callum · Phase B
Open Graph and structured data in file	og:title, og:description, og:image (Gamma OG card), LocalBusiness with areaServed listing the 16 suburbs, Service, FAQPage from the FAQ page, per-route title swap in the router. This half of KEA-17 does not need the domain.	Share previews; eligibility for rich results once the domain is live	Callum · Phase B
Pre-flight script	Appendix A's checks run before every publish: script parses, no duplicate IDs, 34 sections, every getElementByld target exists, zero emoji, no font-size or letter-spacing outside tokens.	Zero regressions per publish	Callum · Phase A

Next: M2 Public Launch (by 30 Nov 2026)

Feature	What and how	Outcome moved	Owner
Stripe Checkout with Apple Pay and Google Pay	Booking creates a Checkout Session for the minimum (\$73.50) as a hold or as a deposit; final invoice captures the difference after weighing, or refunds. Webhook marks paid. Card fields never on our page. The wizard already promises Visa, Mastercard, Amex, Google Pay and Apple Pay, so this is closing a gap the copy has opened.	Paid-on-time rate; ops time per invoice	Callum · KEA-13
Legends Club as Stripe Billing subscriptions	Weekly or fortnightly, pause and skip from #/account, proration handled by Stripe. Fixed collection day stored on the subscription metadata.	Subscribers; churn	Callum · M2/M3
Transactional email and two SMS moments	Six emails (booked, assigned, collected, invoice ready, paid, returned) from Resend templates in brand type; two SMS only: "your operator is about 15 minutes away" and "invoice ready, pay here". Consent captured at booking; STOP handling.	Support load; on-time payment	Callum · KEA-12
Slot capacity per round	Each operator round has a cap per window (start at 4 collections). The wizard greys full windows. Stops overbooking a single operator before it happens rather than after.	Late collections; operator overload	Callum · M2
Google Business Profile and review capture	Profile per service area, "leave a review" link in the returned email, reviews shown on the home trust band once five exist. M2 already asks for 5+ reviews.	Organic enquiries	Callum · M2
Analytics with a consent banner	Vercel Web Analytics or Plausible (no cookies, no banner required under current AU law; a banner is still good practice if any marketing tag is added). Events: estimator used, wizard step reached, booking submitted, club viewed, club started.	Funnel visibility for Part 15	Callum · M2
Accessibility pass to WCAG 2.2 AA	Names on icon buttons, focus order in the wizard, visible focus ring, target size 24 px minimum, contrast fixed by the token work. One assistive-tech run-through on iOS VoiceOver and Android TalkBack.	Complaints avoided; broader customer base (aged care, NDIS self-managed)	Callum · M2
Performance budget	Single file at 236 KB is fine; images are the risk. Budget: hero image under 120 KB (AVIF/WebP), total above-the-fold under 400 KB, Largest Contentful Paint under 2.5 s on a mid-range Android over 4G.	Mobile conversion	Callum · M2

Later: M3 Growth Platform (by 31 Dec 2026)

Feature	What and how	Outcome moved	Owner
Operator field view (PWA)	#/operator, authenticated. Today's round in collection order, tap to call or message, mark collected with photo, enter weight at the machine, mark returned with photo. Route order by a simple nearest-next sort within the suburb; a routing API is not needed under 20 stops.	Ops time per job to near zero	Callum · KEA-16
QR bag tags	Printed tag per customer with a QR to the booking; scan on collection and return. Chain of custody for the guarantee and the insurer.	Loss incidents	Max (print), Callum (scan)
Referral programme	Give \$13.50 (one delivery) to both sides after the referred customer's first paid booking. Funded from contribution, not from operator payout.	Customer acquisition cost	Both

Feature	What and how	Outcome moved	Owner
Post-return NPS	One question 24 hours after "returned", in the email and the app. Detractors route to a support thread automatically.	NPS trend; re-wash requests caught early	Callum
Business accounts	Monthly invoicing, multiple addresses, purchase-order field. The Business page already sells scheduled collections; give it an account type.	B2B revenue share	Both
HubSpot CRM sync	Only when there is a sales motion to run (business accounts, operator recruitment). Not before.	Pipeline visibility	Callum · M3

What is deliberately not recommended

A native app (the web-first promise is the differentiator). Live map tracking of the van (cost and privacy for operators; the 15-minute SMS is the moment that matters). Same-day service messaging until a round can actually do it. A chatbot on the marketing site. Dark mode on the marketing site (paper is the brand). Any second build platform.

PART 10

Operator model, onboarding, WHS and insurance

Operators are independent businesses with their own ABN, equipment, premises and vehicle, working an assigned suburb under the brand. That model is stated clearly on the site. What is not yet written down is how an operator is engaged, paid, protected and kept safe. This part supplies the options and the brief for the adviser. It is not legal, tax or structuring advice.

Engagement model: what the adviser must confirm before KEA-7

Test	Why it bites here	What we put in the brief
Contractor versus employee (common law, multi-factor)	Brand sets the price, allocates the customer, routes and schedules the work, handles invoicing and support. Operators supply equipment and premises and can decline jobs. The control indicators pull both ways.	The draft operator agreement, the ops workflow (Part 4), a description of who sets price, hours and territory, whether operators may work for others and subcontract.
Superannuation guarantee for contractors	A contract that is wholly or principally for labour attracts Super even with an ABN. Payment per load for washing done by the operator with their own machines mixes labour with plant.	Ask: is a per-load fee "principally for labour"? Does a fee structure that separates equipment use from labour change the answer?
Fair Work "employee-like worker" (Fair Work Act s15P, in force from 26 Aug 2024)	Applies to individuals performing digital platform work through a digital labour platform who have two or more of: low bargaining power, pay at or below comparable employee rates, low authority over how work is done. A web platform that allocates jobs and processes payment can be a digital labour platform. The first minimum standards order (17 Aug 2026, \$31.30 to \$32.00 an hour) covers on-demand delivery of food, drinks, alcohol and groceries only, so laundry is not inside it today; the deactivation code (26 Feb 2025) and unfair-deactivation remedies are not limited to that order.	Ask: is Laundrylegends a digital labour platform as defined? If yes, which obligations apply now (deactivation process, record-keeping) and what changes if a laundry or general last-mile order is made? Sources in Appendix B.
Payroll tax grouping, Queensland	Threshold \$1.3 million of Australian taxable wages for 2026-27, rate 4.75% up to \$6.5 million and 4.95% above; the deduction tapers by \$1 for every \$7 above the threshold and reaches nil at \$10.4 million. Contractor payments can be deemed wages under the relevant-contract provisions; grouping with a principal's other entities can be triggered by common control. Not an issue at launch volumes; a design issue for the structure.	Ask: are the venture entity and any related entities grouped, and would operator payments be deemed wages?

Legal and tax boundary

This dossier produces options and a brief. The decision on engagement form is the adviser's to advise and the principals' to make. Owner Max, brief sent by 26 Sep 2026, answer needed before KEA-7 (3 Oct). Draft brief text is in Part 18.

Payout model options (D-12)

Option	Mechanics	For	Against
A. Per-load fee + per-collection fee RECOMMENDED	Fixed AUD per 5 kg load washed plus fixed AUD per collection round-trip. Both figures set by Max in the Ops Sheet; the ops portal calculates payout beside the invoice.	Transparent, easy to model, separates plant-and-utilities cost from travel; supports the Super analysis by separating components.	Needs two numbers set well; under-priced collections punish spread-out suburbs.
B. Revenue share	Fixed percentage of ex-GST revenue per booking.	Simplest to explain; scales with large linen and bulk items automatically.	Looks most like wages; hides the cost structure; the +5% pricing debate becomes an operator-pay debate.
C. Hybrid with Legends Club retainer	Option A for ad-hoc, plus a weekly fixed amount per active Legends Club customer on the round.	Rewards operators for retention, which is the business model.	More moving parts than the first three months need.

No payout figure is proposed here because none can be sourced. The variable P in Part 3 is where it lands. Settlement: weekly, by batch payment (PayID or ABA file) against a recipient-created tax invoice if the operator is GST-registered; the ops portal exports the batch.

Onboarding checklist, per operator, before the first job

#	Item	Evidence held	Filed
1	ABN active, GST status recorded	ABN Lookup screenshot dated; GST registered yes or no drives invoicing.	PPL08
2	Identity and background screening	100-point ID; National Police Check certificate less than 12 months old. The site already promises screening; hold the evidence.	PPL08
3	Signed operator agreement	The version cleared by the adviser, with the payout schedule attached.	LEG02
4	Insurance certificates of currency	Public and products liability in the operator's name at a minimum \$10 million (industry norm for domestic service contractors, confirm with broker); comprehensive motor with business use noted.	PPL08
5	Vehicle and licence	Licence sighted; registration current; vehicle suitable for bagged laundry kept clean and dry.	PPL08
6	Equipment declaration	Washer and dryer make, model, capacity, age; dedicated clean storage; no smoking or pets in the laundry area declared.	OPS03
7	WHS induction	Manual handling (bags under 15 kg, two-bag rule), chemical handling, heat and dryer lint fire risk, driving and fatigue, working alone at doors. Fifteen-minute video plus signed acknowledgement.	OPS03
8	Quality standard	Wash by care label, cold default, fragrance-free option, folding standard photos, bag and tag standard, hand-over script.	OPS03
9	Registered in #/opsops	Name, email, mobile, suburb round, ABN, active flag (fields exist today).	System

WHS including chemicals NEW IN V2

An operator's home laundry is a workplace while work is done there, and Laundrylegends, as the business that engages them and directs the work, holds a primary duty of care alongside the operator under the Work Health and Safety Act 2011 (Qld). Detergents, stain removers and sanitisers are hazardous chemicals under the WHS Regulation 2011 (Qld) where the Safety Data Sheet says so.

- **Chemical register:** a one-page list of approved products with the SDS for each, in OPS03; operators use only listed products. Fragrance-free and eco options are specified here, not chosen ad hoc.
- **Storage and handling:** original containers, closed, off the floor, away from children; gloves for stain treatment; never mix chlorine bleach with ammonia-based products; eye-wash access.
- **Fire:** dryer lint cleared every load; no overnight unattended dryer runs; smoke alarm in or near the laundry.
- **Manual handling and driving:** bag weight limit, trolley for multi-bag collections, no collections after 7 pm, fatigue rule for operators running more than one round.
- **Incident reporting:** in-app "report an incident" on the operator view (M3); until then, a form in OPS03 and a phone call to Callum the same day. Notifiable incidents go to Workplace Health and Safety Queensland.

Insurance: name the policy NEW IN V2

Policy	Held by	Covers	Note
Public and products liability	Brand and each operator	Injury or property damage to third parties at the door or from the service. Brand cover should include contractors' vicarious liability.	Market norm \$10 million to \$20 million; broker to advise.
Goods in care, custody and control (bailee's cover)	Brand	Customer laundry lost, damaged, stolen or destroyed while collected, in process or in transit. Standard liability policies exclude property in your care, so this is the one that matches the written guarantee.	Limit per event and per item; align with the \$250 undeclared-item exclusion.
Motor vehicle, comprehensive, business use	Each operator	Their vehicle while collecting and returning. Private-use policies can decline business-use claims.	Certificate of currency at onboarding and renewal.
Personal accident and illness	Each operator (recommended), or a brand group policy	Income if the operator is injured; contractors are outside workers' compensation unless deemed workers.	Ask the adviser whether operators would be deemed workers under WorkCover Queensland.
Cyber and privacy liability	Brand	Data breach response, notification costs, third-party claims. Relevant from M2 when customer data leaves the artefact.	Small-business policy; check exclusions for unpatched systems.
Management liability	Brand entity	Directors and officers, employment practices, statutory fines where insurable.	Optional at launch; review at M3.

Owner Max: three broker quotes for the brand policies by 17 Oct 2026 (before the first paid job is booked under M1). Owner Callum: certificate-of-currency fields added to #/opsops in Phase C.

PART 11

AU compliance register

Each row names the obligation, what the site does today (verified in the live file), the gap, the owner and the date. Regulated channels are flagged first. Nothing here is legal advice; rows marked "adviser" go to the adviser or solicitor with the brief in Part 18.

Obligation	Today, in the live file	Gap and action	Owner · date
NDIS (regulated channel)	Support page: "not a registered NDIS provider"; accepts self-managed and plan-managed participants; cannot invoice the NDIA for agency-managed plans. VERIFIED	Correct posture. Add: invoices for plan-managed participants must carry the participant's NDIS number and the support item description the plan manager asks for. Never advertise as "NDIS laundry".	Callum · Phase C
Aged care (regulated channel)	No claim made.	Home Care Package recipients can buy domestic assistance; the same invoicing posture as plan-managed NDIS. No registration claim, ever.	Max · M3
Healthcare linen	Business page states no AS/NZS 4146 accreditation and no clinical linen. VERIFIED	None. Keep the statement; add it to the operator quality standard so operators decline it at the door.	Callum · Phase B
GST-inclusive pricing (ACL s48 single price)	Every displayed price GST-inclusive; nine GST statements in the file, including "GST included, always" in the trust band and "Every price on this site includes GST" on the pricing page. VERIFIED	Keep. Any future surcharge or fee must be inside the displayed total.	Callum · standing
ACL consumer guarantees and representations	Written guarantee sits on top of ACL rights and says so. VERIFIED	Qualify the Legends Club saving (Part 3). Turnaround statements must be achievable on every live round. Operator page publishes no income claims; keep.	Callum · Phase B
Privacy Act 1988 and APPs	Privacy Policy drafted, marked not in force, covers collection, use, disclosure, retention (5 years; applications 12 months). VERIFIED	Solicitor review before M2. The \$3 million small-business exemption may apply at launch, but reform to remove it is progressing and secondary sources conflict on timing; design to comply regardless (Appendix B). Notifiable data breach plan in OPS03.	Max · solicitor · 14 Nov
Spam Act 2003 (email and SMS)	Comms preferences page exists. VERIFIED	Consent checkbox for marketing separate from service messages; sender identification and unsubscribe on every marketing message; STOP handling on SMS.	Callum · KEA-12
Contractor engagement (see Part 10)	Operators page states independent contracting and advises independent advice. Ops portal carries a Super and employee-like note. VERIFIED	Adviser brief before the first engagement. Agreement cleared. Super position documented.	Max · 26 Sep brief · 3 Oct answer
Fair Work employee-like worker	Flag present in ops docs.	Adviser to determine whether Laundrylegends is a digital labour platform under the Act; if so, adopt a written deactivation process now.	Max · adviser · 3 Oct

Obligation	Today, in the live file	Gap and action	Owner · date
Payroll tax (Qld)	Not applicable at launch volumes.	Structure question for the adviser at entity setup: grouping and deemed wages.	Max · adviser · with D-03
WHS incl. chemicals	WHS mentioned on operators page.	Chemical register with SDS, induction, incident process (Part 10).	Max · 17 Oct
Insurance	"Appropriate insurance" required of operators.	Name the policies and limits in the agreement and the onboarding checklist (Part 10).	Max · 17 Oct
Business identity on site	Footer placeholder is live. DEFECT D13	Entity name, ABN and address from Max. Required to trade honestly, to open Stripe, and to hold a .com.au.	Max · 25 Sep
Domain eligibility (auDA)	No domain.	.com.au requires an active ABN/ACN with a connection to the name; registrars enforce at registration and renewal since 20 May 2026. .au direct requires Australian presence only.	Callum · D-09
Card surcharging	None.	From 1 Oct 2026 the Reserve Bank's retail payments reforms remove surcharges on eftpos, Visa and Mastercard payments for all merchants (Stripe applies the same rule); price the fee in, never add it. Booking or service fees not tied to the card are outside the ban, which is why Laundry Lady's service fee survives.	Callum · KEA-13
Dry cleaning supplier claim	"Via partner cleaners, PERC-free." VERIFIED	Hold the partner's written confirmation on file (SUP07) before M2, or soften the claim.	Max · 14 Nov
Terms of Service	Drafted, not in force. VERIFIED	Solicitor review with the privacy policy; cancellation and rescheduling terms must match the wizard behaviour.	Max · solicitor · 14 Nov

Never strip

GST-inclusive AUD on every displayed price · "Not a registered NDIS provider" on the support page · contractor, ABN and WHS statements on the operators page · Super and employee-like note in the ops portal · no clinical linen and no AS/NZS 4146 on the business page · ACL not-limited statement in the guarantee · draft markers on privacy and terms until a solicitor clears them.

PART 12

Competitor context

Competitor	What they do well	Where we differ
The Laundry Lady (AU, direct)	Photo-led, named operators, app-first, nationwide coverage claims, published minimum \$70 (27 Jul 2026), next-day return norm. Pink brand is instantly recognisable.	Bold not soft. Web-first, no app. Delivery included in the minimum and no service fee, if confirmed (Part 3). Published guarantee with a claims process. Explicit regulatory honesty on NDIS and clinical linen.
Rinse (US)	Polish benchmark: big type, social proof adjacent to every CTA, status timeline, photo proof, subscription pause and skip.	We adopt the timeline, proof and subscription mechanics (Part 9) and the typographic confidence (Part 8).
Laundryheap (global)	Price in the hero, one-input estimator, slot picker with capacity, transparent per-kg model.	We keep the estimator and price teaser; we add slot capacity at M2.
Local Brisbane and Logan operators	Weak sites, phone bookings, no published pricing, no booking system.	Not a benchmark. The gap they leave is our first sixteen suburbs.
Fresh Folds (QLD, indexed 2026)	\$5.50 per kg, \$60 minimum, \$12.50 delivery flat. UNVERIFIED from search snippet.	Per-kg pricing looks cheaper at small weights; our per-load model is simpler to estimate. Watch, do not chase.

Every strong competitor shows a human and a price within three seconds. We show a price. The human arrives with Phase B imagery and stays with M2 photography. The second thing they all do is tell the customer where the job is; that is the timeline in Part 9.

PART 13

Risk register

Likelihood versus impact, next 90 days

Figure 13.1. Position is judgement, not measurement. Red outline: act this week. Amber: owner and date assigned. Green: monitor.

#	Risk	Mitigation	Owner · date
R1	Entity, ABN, address not confirmed	D-03 decided by 25 Sep. Everything in M2 hangs off it: .com.au, Stripe account, footer, insurance proposal form.	Max · 25 Sep
R2	Operator classification (employee, deemed worker, employee-like)	Adviser brief before the first engagement; agreement cleared; payout model A keeps components separable; deactivation process written.	Max · 3 Oct
R3	Preferred domain unavailable	WHOIS check today; fallback ladder in D-09; brand copy never hard-codes the domain.	Callum · 19 Sep
R4	Design phases slip	Three publishes, one per phase, each with the pre-flight script; KEA-18 due 30 Sep with M1 two weeks later.	Callum · 30 Sep
R5	Lost or damaged laundry with no bailee's cover	Bailee's policy bound before the first paid job; photo proof and bag tags; the guarantee's claims process followed to the letter.	Max · 17 Oct
R6	Overbooking one operator	Manual cap of four collections per window until slot capacity ships at M2; ops watches the inbox daily.	Callum · M2
R7	Price undercut	Compete on all-in floor, guarantee and no fees, not on load price. Review quarterly.	Max · quarterly
R8	Personal information exposure	Editor list kept to two principals until a backend with row-level rules exists; breach plan in OPS03; cyber policy at M2.	Callum · M2
R9	Artefact platform not fit for public scale	Known and planned: Vercel + Supabase at M2. Artefact remains the build and preview surface.	Callum · M2
R10	Generated imagery undermines trust	Placeholders only in Phase B; a real operator photographed for M2 (KEA-15); never depict a real customer.	Callum · M2

PART 14

Roadmap, milestones and launch checklist

19 September to 31 December 2026

Figure 14.1. Navy bars are Callum's build work; red is decisions owed by principals; tan is adviser and broker; green is the first paid job. Dates are Linear milestone targets.

Phase plan for KEA-18, three publishes

Phase	Scope (defect IDs)	Exit test	Target
A Foundation	D2, D3, D4, D7, D15, D16, D17, D18, D20. Tokens for tracking, type scale, radius, spacing; solid state colours; navy tints; money() and tabular numerals; icon sprite replacing every emoji; borders tonal; mute darkened; no red on navy.	Pre-flight script green: zero emoji, no font-size or letter-spacing outside tokens, 34 sections, no duplicate IDs, all targets present, script parses. Phone check on iOS and Android.	23 Sep
B Marketing	D8, D9, D11, D12, D13 (with Max's text), D14, D21. Home to Bold Editorial bands; paper surface; footer and mobile menu restructured; coverage cloud; nav weight; Gamma placeholders in photo slots; OG and JSON-LD; Legends Club qualifier; estimator visual.	Lighthouse accessibility 95+; share preview renders; 390 px walkthrough of all 15 marketing pages.	27 Sep
C App	D1, D5, D6, D10, D19. Tab bar sprite icons with red pill active; stepper; verb-first buttons; wizard header stacks; aria-labels; PWA manifest and install sheet; status timeline; photo proof fields; scroll fade-up with reduced-motion branch.	Book a test job end to end on a phone from the installed PWA; VoiceOver pass of the wizard.	30 Sep

Launch checklist for M2 Public Launch (go / no-go on 24 Nov 2026)

#	Item	Owner	Evidence
1	Entity name, ABN, address in footer, terms and privacy; placeholder gone.	Max	Live page
2	Domain live with HTTPS; the fallback from D-09 if .com.au is not obtainable.	Callum	DNS + certificate
3	Privacy Policy and Terms cleared by solicitor; date of effect inserted; draft markers removed.	Max	Solicitor email filed LEG02

#	Item	Owner	Evidence
4	Stripe live mode; a real \$73.50 test booking paid and refunded.	Callum	Stripe dashboard
5	Six transactional emails and two SMS tested on Gmail, Outlook, iOS Mail; STOP works.	Callum	Test log
6	Bailee's, public liability and cyber policies bound; operator certificates on file.	Max	Certificates PPL08
7	At least two active operators covering all 16 live suburbs, or the live list reduced to match.	Both	#/opsops
8	Real photography in hero and how-it-works; model release filed.	Callum	PPL08
9	Google Business Profile verified; five reviews.	Callum	GBP
10	Analytics events firing; Part 15 dashboard reading real numbers.	Callum	Dashboard
11	Pre-flight script and Lighthouse (performance 85+, accessibility 95+) green on the launch build.	Callum	CI log
12	Incident, breach and complaint processes written in OPS03 with a named first responder.	Max	Runbook

PART 15

Measurement: KPI tree and instrumentation

M3 sets one number: 50+ bookings a month by 31 December 2026. Everything else is a driver of that number or a guard on it. No targets below are forecasts; they are the thresholds at which a principal acts.

Figure 15.1. Three drivers, six leading indicators. Thresholds are action triggers, set by judgement for launch scale; revisit at M3 with real data.

Indicator	Definition	Instrument	Cadence · owner
Visits to booking	Unique visitors to any marketing page ÷ bookings submitted.	Analytics events (M2); before that, inbox count ÷ artefact views.	Weekly · Callum
Wizard completion	Step 3 confirmations ÷ step 1 starts.	Events wizard_step_1, wizard_submit.	Weekly · Callum
On-time collection and return	Collected inside the booked window; returned by the promised time.	Timestamps on the status timeline.	Weekly · Callum, ops
Average order value and loads per booking	Invoice total ÷ bookings; loads ÷ bookings.	Invoices collection; Ops Sheet.	Monthly · Max
Contribution per booking	Part 3 formula with real P, T.	Ops Sheet.	Monthly · Max
Re-wash and damage claims	Claims ÷ bookings; time to settle.	Feedback collection; claims log OPS03.	Monthly · Max
Operator utilisation	Collections per round per week; loads per operator per week.	Bookings by operator.	Weekly · Callum
NPS	Post-return single question (M3).	In-app and email.	Monthly · both

Ops Runner rule: the monthly roll-up is a deterministic job, so it belongs in the single Apps Script on the Ops Sheet as a menu item, run by a principal, preview first. Expected dry-run result on first run: a new tab "KPI 2026-10" with eight rows and zero writes elsewhere.

PART 16

Decision log

Fourteen decisions. Each has options with the recommended option first, an owner and a date. Decisions marked adviser produce a brief, not a conclusion.

D-01 · Seed config: phone, email, PayID or BSB, Stripe link · Both · 26 Sep 2026

1. **(Recommended)** A business mobile on a brand SIM forwarded to Callum, hello@ on the chosen domain (or a Google Workspace alias now), PayID on the entity's account, Stripe payment link in test until KEA-13. Removes the placeholder and makes the first invoice payable.
2. Personal numbers and addresses now, swap later. Faster; leaks personal details into public pages and into customer phones.

D-02 · First operator · Callum · 3 Oct 2026

1. **(Recommended)** One operator in Meadowbrook or Springwood (highest live density), engaged under the adviser-cleared agreement, onboarding checklist complete, live suburbs trimmed to what that operator can reach inside the windows.
2. Principal runs the first jobs personally under the brand. Fastest learning; blurs the operator model and delays the classification test.

D-03 · Entity name, ABN, address for footer, terms, Stripe, domain · Max · 25 Sep 2026

1. **(Recommended)** Confirm the trading entity and provide the three strings. The dossier never invents them. Everything in M2 depends on this.
2. Trade under a principal's existing ABN as a business name in the interim. Adviser question: does that create grouping or liability exposure? Options only; route to adviser.

D-04 · +5% on minimum only, or on every line · Max · 25 Sep 2026

1. **(Recommended)** Keep line items as they are. Reposition on all-in floor with delivery included and no service fee. Confirm Laundry Lady's 2026 per-load price and whether their minimum includes delivery, then publish the comparison with its date.
2. +5% on every line. Simple rule; pushes the load price to \$33.60 against a competitor load price that already appears lower; no evidence customers value the premium yet.
3. Match Laundry Lady's minimum at \$70 and compete on fees. Loses the "priced above, delivers more" story the guarantee supports.

D-05 · Hero imagery: Gamma, shoot, or illustration · Callum · before Phase B (23 Sep)

1. **(Recommended)** Gamma-generated placeholders in Phase B against the brief in Part 8, replaced by a half-day shoot of the first operator for M2 (KEA-15).
2. Illustration throughout. Distinctive; lands closer to "template" than "trusted", and every competitor with traction shows a person.
3. Shoot first. Best result; blocks Phase B on scheduling.

D-06 · Same-day messaging · Both · when true

1. **(Recommended)** No same-day claim until a live round has delivered same-day for four consecutive weeks. Next-day is the promise.
2. "Same-day where available." Vague claims invite ACL scrutiny and support load.

D-07 · Legends Club \$49 / \$69 / \$89 final, or modelled · Max · 25 Sep 2026

1. **(Recommended)** Hold the three points for launch with the two-load qualifier and a "launch pricing under review" note (already in the file). Model against real loads per member after eight weeks.
2. Re-model now. No data yet; the model would be assumptions on assumptions.

D-08 · Nav from 6 items to 4 · Callum · Phase B

1. **(Recommended)** Services · Pricing · Legends Club · For business, plus the crown home link and one CTA "Book a collection". Everything else lives in the footer and the mobile "More".
2. Keep six. The bar competes with the logo on mobile (D14).

D-09 · Domain · Callum · 19 Sep check, 25 Sep decision

STALE NAME These findings were checked against **laundrykings.***, before the 19 September rebrand to Laundrylegends. They are not re-stated for laundrylegends.* below because nobody has run that check — doing so would be a new, unverified claim, not a correction of this one. Re-run the same Vercel/WHOIS check against laundrylegends.com.au, .com, .au and .co before D-09 is decided.

Findings (laundrykings.*, 19 Sep): Vercel cannot sell laundrykings.com.au and laundrykings.com is registered to a third party (resolves to a hosting IP). laundrykings.au is available at USD 23.99 a year and laundrykings.co at USD 29.99 through Vercel. laundrykings.com.au has no DNS record. Any .com.au needs an active ABN with a connection to the name (D-03).

1. **(Recommended)** Run an auDA WHOIS lookup today. If laundrykings.com.au is unregistered, register it through an Australian registrar in the entity's name once D-03 lands, and point it at Vercel. Also register laundrykings.au (the .au direct is cheap, defensive and needs only Australian presence) and redirect it to .com.au.
2. If .com.au is taken: launch on laundrykings.au as the primary. Australians increasingly recognise .au direct; it needs no ABN and can be bought today. Keep the brand copy domain-free.
3. Approach the .com holder to buy. Slow and uncertain; only if the .com.au is also gone.

Do not buy anything without Callum's explicit approval in a chat; the Vercel connector can purchase.

D-10 · Production backend: Supabase or Firebase · Callum · 14 Oct 2026 (before M2 build)

1. **(Recommended)** Supabase, Sydney region: Postgres for finance reporting, row-level security for operators, auth with magic links. One-time migration of the document model into tables.
2. Firebase: nearest to the current document model, quickest migration; weaker reporting, rules harder to audit, data region choice narrower.

D-11 · Copy of record · Callum · 19 Sep 2026

1. **(Recommended)** Git repository xrcallum/King-laundry-. Every publish is committed first with the artefact version in the message. The dossier PDF references the commit hash. Appendix C remains for a paper reader.
2. PDF as record. Proven unrecoverable (351 truncated lines).

D-12 · Operator payout model · Max · 3 Oct 2026, with adviser answer

1. **(Recommended)** Option A in Part 10: per-load fee plus per-collection fee, figures set in the Ops Sheet, weekly settlement by batch. Keeps plant and labour components visible for the Super analysis.
2. Revenue share. Simpler; looks most like wages.
3. Hybrid with Legends Club retainer. Revisit at M3.

D-13 · Linear membership and ownership · Callum · 19 Sep 2026

1. **(Recommended)** Add Max to the workspace; assign D-03, D-04, D-07, D-12, KEA-14 and the new KEA-22 and KEA-23 to Max; add due dates to every open issue.
2. Keep Callum as sole assignee and track Max's items in this dossier. Two sources of truth.

D-14 · Dossier cadence · Both · standing

1. **(Recommended)** Revise at each milestone (M1, M2, M3) and after any decision here changes. Parts 0, 1, 6, 16 and 17 update; the rest only when facts change. Superseded versions to Archive99.
2. Revise per session. Too frequent; the Build Log covers session detail.

PART 17

Connectors, filing, publish rules and the revised resume block

Connectors

Connector	State and use
Linear	Working; read live in v2. Board, issues, milestones, status updates.
Google Drive	Working for Max's account. Empty from Callum's account in v2; confirm sharing of MAXCAL Laundrylegends to callum@maxcalprojects.com.
Gmail	Draft only, never send.
Gamma	Deck exists; generate_image not yet used. Phase B uses it for hero, three how-it-works squares and the OG card.
Vercel	Connected. Used read-only in v2 for the domain check. Deploy at M2. Do not buy a domain without Callum's approval in chat.
Semrush	Approved, zero API units. Top up before the M2 copy pass; not before.
Mobbin, Figma, Webflow, Lovable	Skip. Rebuilding elsewhere breaks convergence.
HubSpot, Cloudflare, Slack, Canva	Connected, unconfigured. M3 at the earliest, HubSpot only with a sales motion.
GitHub	NEW IN V2 xrcallum/King-laundry-, copy of record for site and dossier.

Repository layout

King-laundry-/ README.md site/laundrylegends-site.html verify/preflight.py dossier/	what this is, how to publish, how to verify v4.2 copy of record (SHA-256 b1bda883...eac589) the pre-publish checks from Appendix A this document's HTML source, build script and PDF
---	---

Publish rules, unchanged and non-negotiable

Same URL. capabilities {"db": {}, "user": {}}. favicon crown. contract 0.2.52. Never add mcp. Keep every element ID. Never strip AU compliance text. Commit before publish. Pre-flight green before publish. Confirm on a phone after publish.

Resume block, paste into a fresh chat, then say "go"

LAUNDRYLEGENDS - RESUME FROM PHASE A (FOUNDATION) - DOSSIER v2 Live artifact: claude.ai/artifact/SJihvya38JukdcAUL7JiFx (v4.2) Copy of record: github.com/xrcallum/King-laundry- site/laundrylegends-site.html Working file: /mnt/user-data/outputs/laundrylegends-site.html If missing: clone the repo, or Artifact action "read" on the URL above. Linear: KEA-18 (spec = dossier v2 Parts 7 and 8). Census done and re-verified. Do not re-audit. Execute Phase A → preflight → publish → phone check → Phase B → Phase C. Three publishes.
RULES - Keep every existing element ID. JS depends on them. - Before every publish run verify/preflight.py: script parses, no dup IDs, 34 sections, every getElementById target exists, ZERO emoji (Unicode scan, not a count), no font-size or letter-spacing outside tokens. - Commit to Git before publish; commit message carries the artifact version. - Publish url=claude.ai/artifact/SJihvya38JukdcAUL7JiFx capabilities {"db": {}, "user": {}} favicon crown contract 0.2.52. Never add mcp. - Never strip AU compliance text. Never invent footer entity text (D13 → Max). - Red never sits directly on navy (2.07:1). On navy, CTA = white fill, red text.

PHASE A - FOUNDATION (D2 D3 D4 D7 D15 D16 D17 D18 D20)

1. Tracking tokens: display -.04em, h1 -.03, h2 -.02, h3 -.01, body 0, micro .01, caps .08. Remove all 13 ad-hoc letter-spacing values.
2. Type scale 13/16/20/25/31/39/49/61 px. H1 clamp(2.8rem, 6.5vw, 5.4rem) weight 900. Replace all 57 font-size values with the 8 tokens.
3. Radius tokens 6/12/18 + 999px pills + 50% avatars. Replace 17 values.
4. .plan.on rgba → solid #2A2F6B. Add --navy-sel #22409A, --navy-hov #23407A. Navy tints #071A45 page / #0C265F raised / #22409A selected. No rgba over colour.
5. money(): strip .00 on whole dollars (\$49, \$32; keep \$73.50, \$13.50). font-variant-numeric: tabular-nums on every price.
6. SVG symbol sprite (30 symbols, Part 8 list), 24px grid, 1.75 stroke, currentColor. Replace ALL emoji: 75 inside <i> tags and 49 loose glyphs incl. 23 arrows. Scan = 0.
7. Card borders → tonal or 1px rgba(20,24,38,.08); remove card shadows.
8. --mute #7C8598 → #6B7386. No red text/fill on navy surfaces.

PHASE B - MARKETING (D8 D9 D11 D12 D13 D14 D21)

1. Gamma generate_image per Part 8 brief: hero 4:5, three how-it-works squares, OG 1200x630.
2. Home to Bold Editorial bands (Part 8 layout table). --paper #F6F3EE replaces #EEF0F8.
3. Footer 26 → 10-12 links, two groups, text #C9D2F2 or white. Entity line = Max's text only.
4. Mobile menu: 5 primary + More + one red CTA. Nav to 4 items (D-08).
5. Coverage: grouped suburb cloud, two columns; Check button inline secondary.
6. Nav CTA weight down on mobile. 3 page-header variants across 14 pages.
7. og:* meta, LocalBusiness + Service + FAQPage JSON-LD, per-route title swap.
8. Legends Club copy: "save around \$28 a week compared with two ad-hoc loads".
9. Estimator: add "what a load looks like" strip.

PHASE C - APP (D1 D5 D6 D10 D19)

1. Tab bar: 5 sprite icons, red pill active. Wizard tiles navy-fill selected.
2. Stepper max-width 140px, elements touching. "Continue" then arrow icon, all buttons.
3. Wizard card header stacks below 480px.
4. aria-label on every icon-only control.
5. PWA: manifest (crown 192/512, theme #071A45, standalone, start_url #/app), minimal service worker, one-time install sheet after first booking.
6. Status timeline Booked/Assigned/Collected/Washing/Returned; states in_progress, returned.
7. Photo proof fields on collected and returned (ops sets them for now).
8. Scroll fade-up 12px/320ms inside prefers-reduced-motion: no-preference.

THEN: report Lighthouse a11y and perf, close KEA-18, post Linear status update.

PRICING (do not change): load \$32, iron \$3.50, delivery \$13.50, MINIMUM \$73.50, Legends Club \$49/\$69/\$89. Live in config/pricing.

PART 18

Information capture: what we need from whom

One box per named person. Fill in the name; the email is looked up in the Ops Sheet Directory (Max's is not recorded in any project document, so it is asked for here). Requests are drafted, never sent.

ASK THIS PERSON: MAX JONES

Email: _____ (not in project docs; add to Ops Sheet Directory)

Subject: Laundrylegends: five inputs needed by 25 Sep for the design and launch phases

Max, dossier v2 is attached. Five things only you can supply, with the parts that explain why:

1. Trading entity name, ABN and registered address for the footer, terms, Stripe and domain (D-03, Part 16). The placeholder is public today.
2. Your call on the +5% question with the competitor card in Part 3 in front of you (D-04). Recommended: keep line items, reposition on the all-in floor. Please also check thelaundrylady.com.au/pricing for their current per-load price and whether the \$70 minimum includes delivery; the page is blocked from my build environment.
3. Confirm Legends Club at \$49 / \$69 / \$89 for launch with the two-load qualifier (D-07).
4. Whether the MAXCAL | Laundrylegends Drive folder is shared to callum@maxcalprojects.com; it is empty from this side.
5. Your preferred adviser for the operator engagement brief below, and whether you want to send it or have me draft it into a Gmail draft for you.

The adviser brief (Part 10) needs to go before the first operator is registered on 3 Oct.

ASK THIS PERSON: CALLUM PAGE

Email: callum@maxcalprojects.com

Subject: Laundrylegends: approvals needed from you before Phase A publishes

1. Approve Git as the copy of record (D-11) and confirm the repository and branch.
2. Approve the domain fallback ladder (D-09) and confirm whether I may register laundrykings.au once D-03 lands. Nothing is bought without your written yes in chat.
3. Confirm the Gamma placeholder route for Phase B imagery (D-05) and the half-day shoot for M2.
4. Confirm the nav reduction to four items (D-08).
5. Confirm whether the Gmail and Linear connectors should be used from callum@maxcalprojects.com rather than the personal address recorded in v1.

ASK THIS PERSON: ADVISER OR SOLICITOR (NAME TO BE SUPPLIED BY MAX)

Email: _____

Subject: Laundrylegends: engagement model for independent laundry operators, advice requested

Laundrylegends is a web platform under which independent operators with their own ABN, equipment, premises and vehicle collect, wash, fold and return domestic laundry in an assigned suburb. The platform sets published prices, allocates bookings, schedules collection windows, invoices the customer and handles support. Operators may decline jobs. Payout model under consideration is a fixed fee per load plus a fixed fee per collection, settled weekly. Draft operator agreement, workflow description and website text attached. We ask for advice, with options where the answer is not clear-cut, on:

1. Contractor versus employee characterisation on these facts, and which contract terms and operating practices most affect it.
2. Whether payments under the proposed payout model are wholly or principally for labour for superannuation guarantee purposes, and whether separating plant and labour components changes the position.
3. Whether Laundrylegends is a digital labour platform and its operators employee-like workers under the Fair Work Act (s15P and related provisions); what obligations apply now, including the deactivation code; and the effect of any future minimum standards order covering last-mile or general delivery work.
4. Whether operators would be deemed workers for WorkCover Queensland purposes.
5. Payroll tax (Queensland): relevant-contract deeming and grouping with related entities of the principals.
6. Review of the draft Privacy Policy and Terms of Service, including the cancellation and guarantee terms.

Decision needed by 3 October 2026 to register the first operator.

APPENDIX A

Verification report

What was checked, how, and what came back. Every figure in Parts 3, 4, 6 and 7 that carries a Verified tag traces to a row here.

Inputs

Input	Detail
Dossier v1	Laundrylegends_Complete_Dossier.pdf, 50 pages, 19 Sep 2026. Text extracted with pypdf. Part 11 (pages 15 to 50) parsed by line number; 3,587 numbered lines recovered, 351 carrying the " > " truncation marker; reconstructed size 218,696 bytes against the stated 236,498.
Live artefact	claude.ai/artifact/SJihvya38JukdcAUL7JiFx read in full through the Artifact connector. 3,586 lines, 236,498 bytes. SHA-256 b1bda883095b3cbcdf64dc57876edd67a8005e222b34f2e6f423f49ceac589 . Stored declaration { "db" : {}, "user" : {} } , contract 0.2.52.
Linear	Project and issues listed through the Linear connector, 19 Sep 2026 AEST.
Vercel	Domain availability checked read-only for six names. No purchase.
Google Drive	Two searches from callum@maxcalprojects.com (full text "Laundrylegends"; titles containing Maxcal, Blueprint, Laundry). Both empty.
Public web	Search-indexed content only; direct fetch of thelaundrylady.com.au and fairwork.gov.au is blocked by the build environment's egress policy. Sources in Appendix B.

Method notes

- **Emoji scan class:** U+1F000 to U+1FAFF, U+2600 to U+27BF, U+2B00 to U+2BFF, U+2190 to U+21FF, with optional U+FE0F. v1's lower count likely came from a narrower class or from text extracted from the PDF, where the 6 pt code font drops emoji glyphs (the PDF-derived reconstruction finds only 16). The acceptance test in the pre-flight script is zero glyphs in the whole file, so the class is deliberately wide.
- **Contrast:** WCAG 2.x relative luminance, sRGB, ratio (L1 + 0.05) ÷ (L2 + 0.05). "Derived" values in Part 2 use the same formula on token pairs not directly in v1.
- **DNS:** getent ahosts from the build container; HTTP probing to the candidate domains is blocked by the egress proxy, so hosting could not be inspected.
- **What could not be verified:** the Gamma deck contents, the Drive documents, Laundry Lady's 2026 per-load price and whether their minimum includes delivery, and the v1 real-device screenshots (accepted as stated). The mobile menu count was verified in the fact-check pass (Appendix D).

Pre-flight script (also at verify/preflight.py in the repository)

Run before every publish. Pass `--strict-tokens` after Phase A lands so the token rules are enforced too.

```
python3 verify/preflight.py site/laundrylegends-site.html --strict-tokens
# expected on v4.2 today (verified 19 Sep): FAIL on emoji (139 glyphs, 39 distinct, incl. 15 variation
selectors),
# FAIL on 235 font-size and 19 letter-spacing literals; PASS on script, ids, sections, targets, sentinels
# expected after Phase A: PASS on all seven checks

#!/usr/bin/env python3
"""LaundryKings pre-publish checks.

Usage:  python3 verify/preflight.py site/laundrylegends-site.html [--strict-tokens]

Exit code 0 = safe to publish. Every failing check is printed with a count so the
fix is measurable. Run it before EVERY publish of the live artefact.

Checks (Dossier v2, Appendix A):
```

```

1. exactly one <script> block and it parses (node --check)
2. no duplicate id="" attributes
3. exactly EXPECTED_SECTIONS <section class="page"> elements
4. every getElementById('x') target exists as an id
5. zero emoji / pictographic glyphs anywhere in the file
6. (--strict-tokens) no font-size or letter-spacing literal outside the design tokens
7. every function called in the script is defined
8. AU compliance sentinels present

APPENDIX B

Sources

Public sources are listed with the date the fact applies to and how it was reached. Where a page could not be fetched directly, the fact came from the search engine's indexed text of that page and is marked accordingly.

Fact used	Source	Reached
Laundry Lady minimum \$70.00, pickup and delivery \$14.50, service fee \$2.20 / \$5.50, prices effective 27 Jul 2026	thelaundrylady.com.au/pricing	Indexed text, 19 Sep 2026
Laundry Lady \$27.50 per 5 kg load, fold-only \$14.85, ironing from \$2.75, delivery \$12.50, service fee \$2.00, eco +\$3, 2.3% merchant fee included	thelaundrylady.com.au/wp-content/uploads/2024/01/Price-List-AU-2024_CUSTOMERS.pdf	Indexed text; 2024 list
Fresh Folds \$5.50/kg, \$60 minimum, \$12.50 delivery	freshfolds.com.au/blog/laundry-service-cost-queensland	Indexed text, unverified
Fair Work Act s15P employee-like worker criteria	Fair Work Act 2009 (Cth) s15P via austlii.edu.au	Indexed text
Employee-like framework in force 26 Aug 2024; deactivation code 26 Feb 2025	Fair Work Ombudsman, "Employee-like workers"; fairwork.gov.au	Indexed text (direct fetch blocked)
On-demand delivery minimum standards order commenced 17 Aug 2026; \$31.30 to \$32.00 an hour; scope food, drinks, alcohol, groceries; excludes vehicles over 1 tonne	Fair Work Ombudsman media release 17 Aug 2026; Fair Work Commission "Minimum standards order and decision made"; DLA Piper and Peninsula summaries	Indexed text
Queensland payroll tax threshold \$1.3 million, rate 4.75% to \$6.5 million, 4.95% above; mental health levy above \$10 million	Queensland Revenue Office, payroll tax rates and thresholds 2026-27	Indexed text
Privacy Act small business exemption: reform progressing, sources conflict on commencement	Attorney-General's Department reform pages; secondary legal and IT commentary (Schiller Legal, ComplianceKit, others)	Indexed text; treat as unsettled
Stripe Australia domestic card pricing 1.7% + \$0.30; 1.65% + \$0.30 online and 1.65% + \$0.10 in person from 1 Oct 2026; international 2.8% from 1 Apr 2027	stripe.com/au/pricing; two independent fee-calculator summaries dated 2026	Indexed text, two sources agree

Fact used	Source	Reached
Card surcharges on eftpos, Visa and Mastercard removed for all merchants from 1 Oct 2026; booking and service fees not tied to the card are outside the ban	Reserve Bank of Australia, "Removal of Card Payment Surcharges From 1 October 2026" FAQ; ANZ, CommBank and NAB merchant notices; ABC News 31 Mar 2026	Indexed text, four sources agree
Employee-like worker requires two or more of the s15P characteristics	Fair Work Act s15P (austlii); ACCI Business Guide to Employee-Like Workers (2024)	Indexed text, two sources agree
Queensland payroll tax deduction tapers \$1 per \$7 above \$1.3 million, nil at \$10.4 million	Queensland Revenue Office; RosterElf and QuickBooks 2026-27 guides	Indexed text, three sources agree
.com.au requires active ABN/ACN, enforced at registration and renewal from 20 May 2026; .au direct requires Australian presence only	auDA licensing rules; registrar notices (Instra, TPP Wholesale, VentralIP)	Indexed text
Bailee's (care, custody and control) cover is excluded from standard liability and sold separately	Trident Insurance (AU) and general insurer glossaries	Indexed text; broker to confirm
Work Health and Safety Act 2011 (Qld) and WHS Regulation 2011 (Qld), hazardous chemicals and SDS	Queensland legislation, general knowledge; not re-fetched	Unverified in session
Australian Consumer Law s48 single price; consumer guarantees	Competition and Consumer Act 2010 (Cth) Sch 2; general knowledge	Unverified in session
Spam Act 2003 (Cth) consent, identification, unsubscribe	General knowledge	Unverified in session
Linear issues, milestones, dates	linear.app/keatonmills, project laundrykings-full-platform-build	Connector, live
Domain availability and prices	Vercel domains API	Connector, live, 19 Sep 2026
Live site content and code	claude.ai/artifact/SJihvya38JukdcAUL7JiFx	Connector, full read

Figures marked "general knowledge" or "unverified in session" are stable legislative facts that were not re-fetched in this environment; confirm with the adviser as part of the Part 18 brief.

APPENDIX C

Complete website source code, v4.4 (repository copy of record)

The entire Laundrylegends site: marketing, customer app and ops backend, one self-contained HTML file. Reproduced verbatim from `site/laundrylegends-site.html` on the working branch; the live artefact still carries v4.2 until a principal publishes. 7,307 lines, 505,457 bytes. SHA-256 63a2957c0d717fadb3faa7475aa8db78ffd25eb5ec397e65bd5aec2f01a5afa.

Read this before using the listing

Long lines wrap to the next line here rather than being cut, so the listing is complete. Line numbers are the source line numbers. For editing, use `site/laundrylegends-site.html` in the Git repository, which is the copy of record; this appendix is for a paper reader and for disaster recovery only. The v1 dossier truncated 351 lines; this one truncates none.

{"@type":"Offer","priceCurrency":"AUD","description":"Wash and fold from $32 per load (about 5 kg). Collection and return $13.50. Minimum $73.50 per
collection. All prices include GST."},{ "@context":"https://schema.org","@type":"FAQPage","mainEntity":[{"@type":"Question","name":"Do I need to be
home for collection?","acceptedAnswer":{"@type":"Answer","text":"No. Most customers are not. Leave your bag at an agreed spot – front door, gate, or
wherever you nominate – and we will collect it. Once our messaging system is live you will get a notification when your operator is on the way. Items
left unattended are at your risk until collected, which is set out in our terms."}},{ "@type":"Question","name":"How is the final price worked
```

```
out?","acceptedAnswer":{"@type":"Answer","text":"Your operator weighs and counts your items at collection, then confirms the exact price before any washing starts. The estimator on this site gives you an indicative figure so you are not going in blind, but the confirmed number always comes before the work."}},{@type":"Question","name":"Will my clothes be washed with someone else's?","acceptedAnswer":{"@type":"Answer","text":"No. Every household's laundry is processed on its own cycle. Your items are tagged, kept together, and returned in your own bag. This is a firm operating rule, not a premium upgrade."}},{@type":"Question","name":"What detergent do you use?","acceptedAnswer":{"@type":"Answer","text":"A commercial-grade standard detergent by default. Sensitive-skin and fragrance-free options are available at no extra charge – just note it at booking. An eco formulation is available as a paid add-on. If you have a specific allergy, tell us and we will confirm exactly what will be used before we collect."}},{@type":"Question","name":"Can you separate lights and darks?","acceptedAnswer":{"@type":"Answer","text":"Yes, and we do it as standard. Because they are washed on separate cycles this counts as two loads and is priced accordingly. It is shown on your quote so there is no surprise."}},{@type":"Question","name":"What is your turnaround time?","acceptedAnswer":{"@type":"Answer","text":"Standard turnaround is confirmed at booking based on your service type and your operator's current capacity. Dry cleaning and bulky items take longer. We tell you the return date before you commit rather than promising a headline figure we cannot always hit."}},{@type":"Question","name":"What happens if something is damaged or lost?","acceptedAnswer":{"@type":"Answer","text":"Report it within seven days. We investigate using the count and weight recorded at collection and respond within five business days. Full detail, including what is and is not covered, is on our Service Guarantee page."}},{@type":"Question","name":"Do you handle NDIS participants?","acceptedAnswer":{"@type":"Answer","text":"We can be engaged directly by self-managed and plan-managed participants and by coordinators purchasing on a participant's behalf. We are not currently a registered NDIS provider, so we cannot invoice the NDIA directly for agency-managed plans. Our Supported Living page sets this out in full."}}]}</script>

3155 <!-- =====
3156     ABOUT
3157     ===== -->
3158 <section class="page" id="p-about">
3159     <div class="phead"><div class="wrap">
3160         <div class="crumb"><a href="#/">Home</a> / About</div>
3161         <h1>About Laundrylegends</h1>
3162         <p>An Australian-owned laundry collection and delivery business built for South East Queensland.</p>
3163     </div></div>
3164     <div class="sec"><div class="wrap"><div class="prose">
3165         <h2>What we are</h2>
3166         <p>Laundrylegends collects your laundry, washes it properly, and brings it back. That is the whole proposition. We are not a laundromat
you drive to, and we are not an app that disappears when something goes wrong.</p>
3167         <p>We operate through a network of local operators – independent small businesses running collections in their own suburbs – supported by
a central booking, routing and customer service platform. That means the person handling your washing lives near you, and the systems behind them are
run properly.</p>
3168
3169         <h2>Why we built it this way</h2>
3170         <p>Two things are broken in this category. Traditional laundries keep hours that working people cannot use, and publish no pricing at
all. App-based services solved the convenience problem but treated the people doing the work as disposable, and most of them are gone.</p>
3171         <p>We have built for the middle: published pricing, proper scheduling, and operators who are treated as business partners rather than
units of throughput. A round only opens when there is someone good enough to run it.</p>
3172
3173         <h2>How we are different</h2>
3174         <ul>
3175             <li><strong>Published pricing.</strong> Every rate is on this website. You never have to ring to find out what something costs.</li>
3176             <li><strong>Price confirmed before work starts.</strong> Your operator weighs and counts, then confirms the figure. Nothing proceeds
until you have it.</li>
3177             <li><strong>Your wash is your wash.</strong> Processed on its own cycle, never combined with another household's items.</li>
3178             <li><strong>We say what we cannot do.</strong> If we are not accredited for something, or not registered for something, we say so on
the relevant page rather than letting you find out later.</li>
3179         </ul>
3180
3181         <h2>Coverage</h2>
3182         <p>We are currently building out across Brisbane, Logan and South East Queensland, suburb by suburb. Our <a href="#/coverage"
style="text-decoration:underline;color:var(--navy)">coverage page</a> shows where we are live and where we are opening next.</p>
3183
3184         <h2>Company details</h2>
3185         <p>Trading as Laundrylegends. Company and ABN details are published in the footer of every page and on our <a href="#/contact"
style="text-decoration:underline;color:var(--navy)">contact page</a>.</p>
3186     </div></div></div>
3187 </section>
3188
3189 <!-- =====
3190     GUARANTEE
3191     ===== -->
3192 <section class="page" id="p-guarantee">
3193     <div class="phead"><div class="wrap">
3194         <div class="crumb"><a href="#/">Home</a> / Service Guarantee</div>
3195         <h1>Our service guarantee</h1>
3196         <p>What we promise, what we will do if we get it wrong, and the limits of both – in plain language.</p>
3197     </div></div>
3198     <div class="sec"><div class="wrap"><div class="prose">
3199         <h2>If the wash is not right</h2>
3200         <p>Tell us within <strong>48 hours</strong> of delivery and we will re-wash the affected items at no charge, collected and returned at
our cost. If a re-wash will not fix it, we will refund the charge for those items.</p>
3201
3202         <h2>If we are late</h2>
3203         <p>If we miss your agreed return date and have not contacted you in advance to reschedule, the delivery fee for that order is refunded
automatically. You do not need to ask.</p>
3204
3205         <h2>If something is damaged or missing</h2>
3206         <p>Report it within <strong>7 days</strong> of delivery. We will investigate using the item count and weight recorded at collection, and
respond within 5 business days with an outcome.</p>
3207         <p>Where we are at fault, we will settle the claim. Settlement is based on the item's current value taking reasonable account of age and
condition, not its original purchase price. This is standard practice across the industry and we would rather state it here than argue about it
later.</p>
3208
3209         <h3>What is not covered</h3>
3210         <ul>
3211             <li>Items where the manufacturer's care label was absent, illegible, or where following it caused the damage</li>
3212             <li>Pre-existing damage, wear or weakness not visible at collection</li>
3213             <li>Colour bleed from items not identified as at-risk at collection</li>
3214             <li>Items left in pockets – we check, but we cannot guarantee we catch everything</li>
3215             <li>Loss or damage to items we specifically advised against processing and you asked us to proceed with anyway</li>
3216         </ul>
3217
3218         <h2>High-value items</h2>
3219         <p>Tell us before collection if any item is worth more than <strong>$250</strong>. We will either handle it under a specific arrangement
or tell you we are not the right service for it. Items above this value that were not declared at collection are covered only to the standard limit.
</p>
3220
3221         <h2>Insurance</h2>
3222         <p>Our operators are required to hold current public liability cover, and the specific policy type and minimum sum insured are set out in
the operator agreement. We will confirm the exact cover in place on request – email us and we will send you the detail rather than a vague assurance.
</p>
3223
3224         <h2>Your rights under Australian Consumer Law</h2>
3225         <p>This guarantee sits <strong>on top of</strong> your rights under the Australian Consumer Law. Nothing on this page limits or replaces
those rights. Our services come with guarantees that cannot be excluded under the ACL, including that services are provided with due care and skill.
If you believe we have failed to meet those guarantees, you have remedies available to you regardless of what this page says.</p>

```

3311         <div class="crumb"><a href="#/">Home</a> / Privacy Policy</div>
3312         <h1>Privacy policy</h1>
3313         <p>How we collect, use, store and disclose your personal information.</p>
3314     </div></div>
3315     <div class="sec"><div class="wrap"><div class="prose">
3316         <div class="updated"><strong>Draft for legal review – not yet in force. Date of effect to be inserted on approval.</div>
3317         <p>This policy explains how Laundrylegends handles personal information in accordance with the <strong>Privacy Act 1988 (Cth)</strong>
and the Australian Privacy Principles.</p>
3318     </div>
3319     <h2>1. What we collect</h2>
3320     <ul>
3321         <li><strong>Identity and contact details</strong> – name, email, phone number, residential or business address.</li>
3322         <li><strong>Service information</strong> – collection addresses, access instructions, laundry preferences, order history, item counts
```

Page 92 of 142

```
3405     </ul>
3406     <p>We are not liable for items left in pockets. We may refuse to process any item at our discretion, and will tell you why.</p>
3407
3408     <h2>5. Care labels and risk</h2>
3409     <p>We process items in accordance with their manufacturer care labels. Where a label is missing, illegible or incorrect, we process
according to reasonable professional judgement and are not liable for resulting damage. Where we assess an item as high-risk we will contact you and
proceed only with your instruction, at your risk.</p>
3410
3411     <h2>6. Payment</h2>
3412     <p>Payment is due once your final price is confirmed and before return delivery, unless you hold an approved account. Legends Club
memberships are billed in advance on your nominated cycle. We may suspend service on overdue accounts after written notice.</p>
3413
3414     <h2>7. Legends Club</h2>
3415     <p>Legends Club has no minimum term. You may pause or cancel with notice before your next scheduled collection; billing stops from that
point. Fees already paid for a completed billing period are not refunded. We may change plan pricing with written notice before your next billing
date, and you may cancel rather than accept the change.</p>
3416
3417     <h2>8. Liability and claims</h2>
3418     <p>Claims must be made within the timeframes set out in our <a href="#/guarantee" style="text-decoration:underline;color:var(--
navy)">Service Guarantee</a>. Our liability for loss or damage is limited as described there, and is based on an item's current value taking
reasonable account of age and condition.</p>
3419     <p>Nothing in these terms excludes, restricts or modifies any guarantee, right or remedy you have under the <strong>Australian Consumer
Law</strong> that cannot lawfully be excluded. Where our liability can be limited under the ACL, it is limited to resupplying the service or paying
the cost of resupply.</p>
3420
3421     <h2>9. Unclaimed items</h2>
3422     <p>Where we cannot deliver items and cannot contact you, we will hold them for 90 days and make reasonable attempts to reach you. After
90 days we may dispose of or donate them, and recover reasonable storage costs.</p>
3423
3424     <h2>10. Our operators</h2>
3425     <p>Services are performed by independent operators engaged by us. We remain responsible to you for the service under these terms and
under the Australian Consumer Law.</p>
3426
3427     <h2>11. Suspension and termination</h2>
3428     <p>We may decline or discontinue service where items are unsuitable, where an account is overdue, or where an operator's safety is at
risk. We will tell you why.</p>
3429
3430     <h2>12. Governing law</h2>
3431     <p>These terms are governed by the laws of Queensland, Australia, and the courts of Queensland have jurisdiction.</p>
3432
3433     <h2>13. Changes</h2>
3434     <p>We may update these terms. The version published here at the time you place a booking is the version that applies to it.</p>
3435 </div></div>

4438   ['Do I need to be home for collection?','No. Most customers are not. Leave your bag at an agreed spot – front door, gate, or wherever you
nominate – and we will collect it. Once our messaging system is live you will get a notification when your operator is on the way. Items left
unattended are at your risk until collected, which is set out in our terms.'],
4439   ['How is the final price worked out?','Your operator weighs and counts your items at collection, then confirms the exact price before any
washing starts. The estimator on this site gives you an indicative figure so you are not going in blind, but the confirmed number always comes before
the work.'],
4440   ['Will my clothes be washed with someone else\'s?','No. Every household\'s laundry is processed on its own cycle. Your items are tagged,
kept together, and returned in your own bag. This is a firm operating rule, not a premium upgrade.'],
4441   ['What detergent do you use?','A commercial-grade standard detergent by default. Sensitive-skin and fragrance-free options are available at
no extra charge – just note it at booking. An eco formulation is available as a paid add-on. If you have a specific allergy, tell us and we will
confirm exactly what will be used before we collect.'],
4442   ['Can you separate lights and darks?','Yes, and we do it as standard. Because they are washed on separate cycles this counts as two loads
and is priced accordingly. It is shown on your quote so there is no surprise.'],
4443   ['What is your turnaround time?','Standard turnaround is confirmed at booking based on your service type and your operator\'s current
capacity. Dry cleaning and bulky items take longer. We tell you the return date before you commit rather than promising a headline figure we cannot
always hit.'],
4444   ['What happens if something is damaged or lost?','Report it within seven days. We investigate using the count and weight recorded at
collection and respond within five business days. Full detail, including what is and is not covered, is on our Service Guarantee page.'],
4445   ['Do you handle NDIS participants?','We can be engaged directly by self-managed and plan-managed participants and by coordinators
purchasing on a participant\'s behalf. We are not currently a registered NDIS provider, so we cannot invoice the NDIA directly for agency-managed
plans. Our Supported Living page sets this out in full.'],
4446   ['How do I pay?','Payment is processed once your final price is confirmed, before return delivery. Legends Club members are billed on their
nominated cycle. Approved business accounts can be invoiced monthly.'],
4447   ['Can I cancel Legends Club?','Yes, any time, with notice before your next scheduled collection. No minimum term, no exit fee. Fees already
paid for a completed period are not refunded.'],
4448   ['Do you clean healthcare or clinical linen?','Not currently. We do not hold AS/NZS 4146 accreditation, so we will not quote for work that
legally requires it. If you need accredited healthcare laundry we will say so rather than take the job.'],
4449   ['How do I become an operator?','Through the Become an Operator page. It sets out what the arrangement is, what you need, and what we
cannot yet tell you – including why we are not publishing earnings figures.'],
4450 ];

7297         if (c.email) document.getElementById('contactEmail').innerHTML = '<a href="mailto:' + c.email + '" style="text-decoration:underline;color:var(--navy)">' + c.email + '</a>';
7298       }, () => {});
7299     } catch(e){}
7300   }
7301   await appBoot();
7302   if(CAN_EDIT){ const ml=document.getElementById('mobOps'); if(ml) ml.style.display=''; }
7303   if (location.hash.replace('#/', '') === 'dash') loadDash();
7304 })();
7305 </script>
7306 </body>
7307 </html>

```

APPENDIX D

Fact-check register

A second pass, run after the document was built, that re-derived every number from first principles and re-sourced every external fact from at least two independent references where the primary page could not be fetched. Each row states the claim as it appears in the dossier, how it was checked, the result, and what was changed. Rows marked Corrected were fixed in this edition before release.

Arithmetic and derived figures

Where	Claim	Check	Result
Part 0, 3	Two loads + delivery = \$77.50; saving vs Solo \$28.50 = 36.8%	$2 \times 32.00 + 13.50 = 77.50$; $77.50 - 49.00 = 28.50$; $28.50 \div 77.50 = 0.3677$	HOLDS
Part 0, 3	One load ad hoc = \$45.50; Solo costs \$3.50 more	$32.00 + 13.50 = 45.50$; $49.00 - 45.50 = 3.50$	HOLDS at the v4.2 price
Part 0, 3, E	Legends Club +30%: \$49 → \$63.70, \$69 → \$89.70, \$89 → \$115.70	$49 \times 1.3 = 63.70$; $69 \times 1.3 = 89.70$; $89 \times 1.3 = 115.70$	HOLDS
Part 0, 3, site	At Solo \$63.70: saving vs two ad-hoc loads \$13.80 = 17.8%; one load ad hoc costs \$18.20 less than Solo	$77.50 - 63.70 = 13.80$; $13.80 \div 77.50 = 0.1781$; $63.70 - 45.50 = 18.20$; site rounds 13.80 to "around \$14"	HOLDS
Part 0, 3	Our \$32 load is about 16% above Laundry Lady's 2024 \$27.50	$32 \div 27.50 = 1.1636$	HOLDS (16.4%)
Part 0, 3	Laundry Lady one-off floor \$90.00	$70.00 + 14.50 + 5.50 = 90.00$, conditional on the minimum excluding both fees	ARITHMETIC HOLDS ; premise UNVERIFIED
Part 3	GST on \$77.50 = \$7.05; ex-GST \$70.45	$77.50 \div 11 = 7.0455$; $77.50 - 7.05 = 70.45$	HOLDS
Part 3	Stripe fee \$1.62 now, \$1.58 from 1 Oct 2026	$0.017 \times 77.50 + 0.30 = 1.6175$; $0.0165 \times 77.50 + 0.30 = 1.5788$	HOLDS
Part 3	Remaining after GST and Stripe = \$68.83	$70.45 - 1.62 = 68.83$	HOLDS
Part 3, Fig 3.1	Bar widths to scale at 5.6 px per dollar	$73.50 \times 5.6 = 411.6$; $70 \times 5.6 = 392$; $14.50 \times 5.6 = 81.2$; $5.50 \times 5.6 = 30.8$	HOLDS
Part 3, Fig 3.2	Segments to scale at 8.258 px per dollar	$640 \div 77.50 = 8.258$; GST 58.2 px; Stripe 13.4 px	HOLDS
Part 16 D-04	+5% on the load price gives \$33.60	$32.00 \times 1.05 = 33.60$	HOLDS
Part 8	Type scale 13/16/20/25/31/39/49/61 is a 1.25 ratio	Exact: 13, 16.25, 20.3, 25.4, 31.7, 39.7, 49.6, 62.0	CLARIFIED : top four steps are rounded down; note added to Part 8
Part 14, Fig 14.1	Gantt axis at 5.437 px per day from 19 Sep	1 Oct = day 12 → x 215; 15 Oct = day 26 → 291; 1 Nov = day 43 → 384; 30 Nov = day 72 → 541; 31 Dec = day 103 → 710	CORRECTED : 1 Nov, 30 Nov and 31 Dec ticks were 6, 5 and 5 px early

Colour and contrast (WCAG 2.x relative luminance)

Where	Claim	Computed	Result
Part 2	navy #1A3480 on white 11.37:1	11.37	HOLDS
Part 2	red #CC2228 on white 5.49:1; on navy 2.07:1	5.49; 2.07	HOLDS
Part 2	body #4A5266 on white 7.81:1; mute #7C8598 3.71:1	7.81; 3.71	HOLDS
Part 2	line #E1E5EE on bg2 1.19:1, on white 1.26:1	1.19; 1.26	HOLDS
Part 2	ok 4.74:1; warn 5.51:1	4.74; 5.51	HOLDS
Part 2, 8	White on navy-d "14.9:1"	14.66	CORRECTED to 14.7:1
Part 2	navy-l on white "7.3:1"	7.81	CORRECTED to 7.8:1
Part 2	ink on white "17.4:1"	17.67	CORRECTED to 17.7:1
Part 7, 8	New mute #6B7386 on white "4.7:1"	4.75	HOLDS ; stated to two decimals
Part 8	#C9D2F2 on navy-d "10.5:1"	9.76	CORRECTED to 9.8:1; still passes 4.5:1
Part 7 D12	Footer text "grey on navy 3.2:1" (from v1)	Footer background is #0C1430, link colour white at 50% alpha → #868A98; ratio 5.27	CORRECTED to 5.3:1; contrast passes, defect restated as hierarchy; non-token background noted
Part 8	Selected plan #2A2F6B with white text	12.23	PASSES

Counts taken from the live file

Where	Claim	Check	Result
Part 1, 4, 7	3,586 lines, 236,498 bytes, 34 sections, 281 unique IDs, 120 getElementById targets, one script of 77,542 chars	Re-run on the committed file, SHA-256 b1bda883...eac589	HOLDS
Part 0, 7	83 <i> tags, 75 with emoji, 29 distinct; 49 loose glyphs, 16 distinct, 23 arrows	Re-run with the Part 7 Unicode class	HOLDS . The pre-flight script's wider class (adds U+2300 to U+23FF and U+200D) reports 139 glyphs, 39 distinct; both are correct for their class
Part 7	13 letter-spacing values, 57 font sizes, 17 radii, 26 footer links, 0 og:, 0 JSON-LD, 9 aria-label, 0 , 16 <svg>	Re-run	HOLDS
Part 7	Mobile menu 15 items	Element id="mob": 15 anchors and one close button	VERIFIED ; previously unverified
Part 11	"49 'inc' statements" as evidence of GST-inclusive pricing	The substring "inc" matched unrelated words. Precise: 9 occurrences of "GST", including "GST included, always", "Every price on this site includes GST", "Total due (GST incl.)"	CORRECTED in Part 11

Where	Claim	Check	Result
Part 4	Ops pages gated by CAN_EDIT; user capability gives persisted or session-only store	Read of the script's boot sequence (lines 3,554 to 3,586)	HOLDS
Part 5	Guarantee terms (48 h re-wash, 7-day claims, 5-business-day investigation, \$250 undeclared items); privacy and terms marked draft	Text search of the live file	HOLDS

Live systems

Where	Claim	Check	Result
Part 6	14 issues KEA-5 to KEA-18; KEA-5, 8, 9, 10 Done; all assigned to Callum; no due dates; KEA-11 title says Cloudflare Pages; M1 15 Oct 57%, M2 30 Nov 0%, M3 31 Dec 0%; project target 31 Dec 2026	Linear connector, project listing and issue listing, 19 Sep 2026	HOLDS
Part 0, 16	laundrylegends.com.au and .com not purchasable via Vercel; .au USD 23.99; .co USD 29.99	Vercel domain check, 19 Sep 2026	HOLDS
Part 0, 16	laundrykings.com resolves (13.248.169.48); laundrylegends.com.au has no DNS record	DNS lookup from the build container	HOLDS ; registration status of .com.au still needs WHOIS
Part 1, 17	Drive folder not visible from Callum's account	Two Drive searches, both empty	HOLDS

External facts, two-source rule

Where	Claim	Sources agreeing	Result
Part 3, 12	Laundry Lady: minimum \$70.00, pickup and delivery \$14.50, service fee \$2.20 recurring / \$5.50 one-off, effective 27 Jul 2026	Two independent search extracts of thelaundrylady.com.au/pricing	CONFIRMED ; direct fetch blocked
Part 3	Laundry Lady 2024: \$27.50 per load, ironing from \$2.75, delivery \$12.50, service fee \$2.00, eco +\$3, 2.3% merchant fee included	One source (their 2024 price list PDF, indexed)	SINGLE SOURCE , dated 2024; labelled as such
Part 10, 11	Employee-like worker: s15P, two or more of low bargaining power, pay at or below comparable employees, low authority; digital platform work; from 26 Aug 2024	austlii s15P extract; ACCI Business Guide 2024; Fair Work Ombudsman page extract	CONFIRMED
Part 10	Deactivation code from 26 Feb 2025	Fair Work Ombudsman extract; DLA Piper summary	CONFIRMED
Part 10	On-demand delivery order commenced 17 Aug 2026; \$31.30 to \$32.00 an hour; food, drinks, alcohol, groceries; excludes vehicles over 1 tonne	Fair Work Ombudsman media release 17 Aug 2026; Fair Work Commission news item; Peninsula and DLA Piper summaries	CONFIRMED

Where	Claim	Sources agreeing	Result
Part 10, 11	Qld payroll tax: \$1.3 million threshold; 4.75% to \$6.5 million, 4.95% above; mental health levy 0.25% above \$10 million, further 0.5% above \$100 million; deduction tapers to nil at \$10.4 million	Queensland Revenue Office extract; QuickBooks and RosterElf 2026-27 guides	CONFIRMED ; taper detail added
Part 3, 4, 11	Stripe AU domestic 1.7% + \$0.30, falling to 1.65% + \$0.30 online from 1 Oct 2026	stripe.com/au/pricing extract; two 2026 fee-calculator summaries	CONFIRMED
Part 3, 11	Card surcharges banned from 1 Oct 2026	RBA FAQ; ANZ, CommBank and NAB notices; ABC News	ATTRIBUTION CORRECTED : the ban is the Reserve Bank's reform applied through card network rules to all merchants, not a Stripe policy. Booking and service fees not tied to card use are outside it
Part 4, 11, 16	.com.au requires an active ABN or ACN; enforcement at registration and renewal since 20 May 2026; .au direct needs Australian presence only	auDA rules extract; Instra, TPP Wholesale and VentralP registrar notices	CONFIRMED
Part 11	Privacy Act small-business exemption: removal progressing, commencement unsettled	Multiple secondary sources disagree (some say 10 Dec 2026, others say no Bill yet)	UNSETTLED ; dossier designs for compliance regardless
Part 12	Fresh Folds \$5.50/kg, \$60 minimum, \$12.50 delivery	One indexed blog page	SINGLE SOURCE ; labelled
Part 10, 11	Statute names: Work Health and Safety Act 2011 (Qld), WHS Regulation 2011 (Qld), Privacy Act 1988 (Cth), Spam Act 2003 (Cth), Competition and Consumer Act 2010 (Cth) Sch 2 s48, Fair Work Act 2009 (Cth) s15P	Titles and section numbers checked against the extracts above and standard citations	HOLDS ; not re-fetched from primary legislation sites (blocked)

Build defects found and fixed in this pass

Page, first build	Defect	Fix
3 to 5	Part 0 described itself as two pages; it runs to three	Wording corrected
20	Type specimen clipped at the right edge in print (rendered at screen width, not column width)	Specimen re-rendered at 60% with a stated scale
40 to 48	Everything after the resume block rendered in italics: a literal <i> inside the block opened an element that never closed	Escaped; the same class of error is what the site's own emoji census exists to catch
2	Contents listed only one page number	Page numbers generated from the rendered PDF on a second build pass
33	Gantt tick marks for 1 Nov, 30 Nov and 31 Dec drawn 5 to 6 px early	Recomputed
12	Data-model line overflowed its panel	Split across three lines

Method: every page was rendered to an image and inspected; every number was recomputed by script from the tokens, the rate card or the live file; every external fact was searched for a second time with different wording, and accepted only when at least two independent references agreed. Anything that fails that test carries an Unverified or Single-source tag in the body of the dossier, not just here.

APPENDIX E

Build record: Phases A, B and C

KEA-18 was executed on 19 September 2026 against the copy of record. This appendix records what changed, what it was verified against, and the one defect found during the build that matters more than every design defect in Part 7 combined.

The defect that was not in the audit

FOUND DURING THE BUILD

The customer app and the ops layer never initialised in v4.2. `appBoot()` called `wireWizard()` and `wireSettings()`. Neither function existed anywhere in the 3,586-line file. `appBoot` threw a `ReferenceError` on its second statement, so every line after it never ran: the version labels, `renderHome`, `renderAccount`, `renderForms`, `renderWizard`, `renderBookings`, `renderMessages`, `appRoute`, the not-signed-in notice, the live `config/booking` and `config/contact` listeners, and the editor preload of operations.

Every control those two functions were meant to wire was therefore dead: the wizard's quantity steppers, Continue, Previous and Confirm, the recurring switch, the terms gate, and the settings save buttons `pdGo`, `pfGo`, `adGo`, `udGo` and `cmGo`, plus the profile switcher sheet. A customer could not complete a booking and could not save a profile, an address or a preference.

This corrects a claim carried in both editions of this dossier. Part 1 of v1 and v2 said "the site works end to end (booking → ops → invoice)". It did not. The functional claim was never tested; the audit that produced Part 7 was a design audit, and a design audit does not press the buttons.

What shipped

Phase	Change	Defect
A Foundation	Both missing functions implemented against the existing state objects and helpers; <code>appBoot</code> no longer dies on one bad statement	new
	214 font sizes mapped onto the eight-step scale; form inputs raised to 16 px so iOS stops zooming on focus	D17
	29 ad-hoc letter-spacing values replaced by tracking tokens that loosen as size drops	D4
	19 radii onto three tokens plus a pill	D18
	No rgba over a coloured surface anywhere; solid selected, hover and raised navy tints. This kills the purple Legends Club bug at its source rather than at the one place it showed	D3
	39 colour corrections on navy: translucent white body text measured about 3.6:1 and is now solid tokens at 7.57:1 or better; red text on navy measured 2.07 to 3.80:1 and is gone. The hero keeps red as a slab behind white text at 5.49:1, which is also the page's one red slab	D16, D20
	<code>money()</code> drops .00 on whole dollars; tabular numerals on every price	D7
	124 emoji replaced by one 49-symbol SVG sprite, 24 px grid, 1.75 stroke, <code>currentColor</code> ; the checklist tick became a masked SVG so no glyph survives	D1, D2
	Card shadows removed, borders raised to a visible step, hero capped at the display step	D15

Phase	Change	Defect
B Marketing	Top nav six items to four; the wordmark is the heaviest element in the bar again	D14
	Mobile menu: one red CTA, five primary destinations, the rest behind a More group with aria-expanded	D11
	Footer 26 links to eleven in two named groups, on the navy-d token, one legal row instead of two	D12
	Coverage Check button inline and secondary; the input leads	D8
	Legends Club saving now names its basis, two ad-hoc loads a week, in both places it appears	ACL
	Open Graph, Twitter card, and three JSON-LD blocks: LocalBusiness with all 16 live suburbs, Service with the published rates, FAQPage from the site's own entries. A title per route	D21
	Warm paper page surface; "what a load looks like" beside the estimator	Part 8, 9
C App	Stepper is one 150 px control with the value centred and tabular; both buttons keep a 44 px touch target	D5
	Active tab wears a red pill behind its icon, so the current tab is not signalled by colour on text alone	D1
	Accessible names on 17 icon-only controls that had none; remaining bare glyphs became real icons	D19
	Wizard card header stacks below 480 px	D10
	Installable web app: manifest, crown icon, standalone display, Apple touch icon, and a one-time install offer after the first booking	Part 9
	Five-stage booking timeline, Booked to Returned, with the current stage marked for assistive technology; scroll entry motion inside prefers-reduced-motion: no-preference ; a visible focus ring everywhere	Part 9

Same-day follow-ups after the build (pre-launch audit, 19 September 2026)

Item	Change
Brand colour alignment	The site's tokens were derived from a brand guess (red #CC2228, navy #1A3480). Sampling the logo artwork gives red #D84330 and navy #0C265F. The navy token now is the logo navy. The logo red measures 4.41:1 on white, which fails AA for small text, so it ships as --red-brand for the logo, the hero slab and non-text marks, and --red is the same hue deepened to #C43828 (5.33:1 on white, 4.81:1 on paper) for buttons and small text. Favicon, manifest, theme-colour and every inline SVG fill follow. Part 8 carries the new values; the Part 2 table is left as the record of what v4.2 shipped.
Hero image and Open Graph card	The supplied brand photograph showed visibly soiled garments under the logo. A region-aware clean-up (tools/clean_hero.py) removed the soiling from every garment while leaving the logo pixels untouched; the result is site/brand/laundrylegends-hero-clean.jpg and a 1200 × 630 crop is site/og-card.png, which the og:image and twitter:image tags now reference by absolute URL. The original is kept beside it.
Numbers that were typed, now computed	The Legends Club comparison on the home page, the pricing-page minimum in the lede, and the hero estimate all read from PX, so a config/pricing override cannot leave stale figures in copy. The saving rounds to whole dollars because the sentence says "around".
Large-linen estimate	The estimator and the ops invoice price linen at the sheet-set rate because the wizard has one quantity control; both now say so and show the three per-item rates, and the invoice points the operator at the adjustment field for blankets and rugs.

Item	Change
Rendering defects	The <code>.chk2</code> tick was an SVG string inside CSS content, which browsers print as text; it is now a background image. The sticky nav declared <code>box-shadow</code> twice; the dead declaration is gone.
Pre-flight check 7	<code>strip_js</code> did not understand a template literal nested inside another one, so a stray word inside a string could be reported as an undefined function. It now tracks <code>`\${'{'}`</code> depth.

Interaction and motion layer (19 September 2026, commit 8d595e1)

Direction agreed with Callum before starting: evolve the existing system, whole site, visual and interaction layer only, no new features. Every addition is a token or a base-component rule, so it reaches all 34 sections without per-page edits.

Layer	What changed
Elevation	New tokens <code>--e-hov</code> , <code>--e-hov-dk</code> , <code>--e-press</code> , <code>--e-sheet</code> , <code>--e-toast</code> and <code>--lift</code> . Rest state stays border-only (D15 stands); a soft lift and shadow appear on hover and a scale-down on press, on buttons, cards, service tiles, plan cards, chips and the coverage pill.
Motion	<code>--ease</code> and <code>--ease-spring</code> replace the flat <code>ease</code> . Route changes fade and slide in (<code>--tr-page</code> , 0 s under reduced motion); wizard steps and the mobile menu slide in; FAQ answers animate their height (grid 0fr to 1fr, each answer wrapped in <code>.ans-in</code>); inline status messages animate in; steppers pulse the number; the sticky nav gains a shadow once scrolled; nav links carry an animated underline on hover and on the active page.
Accessibility	Skip-to-content link first in the tab order, implemented as a focus-and-scroll handler because any bare <code>#id</code> anchor fires this router's <code>hashchange</code> listener and lands on home (reproduced, then fixed; <code><main></code> renamed to <code>main-content</code>). FAQ buttons carry <code>aria-expanded</code> ; <code>say()</code> sets <code>role="status"</code> and <code>aria-live</code> on every message it writes; the live estimate total is <code>aria-live</code> ; inputs get a visible focus ring, not a border change alone.
Verified	Preflight 8/8, e2e 20/20, a11y sweep 0 issues after the change. Hover and press states checked against computed <code>box-shadow</code> and <code>transform</code> , the skip link against <code>document.activeElement</code> , the nav against its class list; a full-page screenshot cannot show a transient pseudo-class, so none of this was taken from the CSS alone.

Layout review, both viewports (19 September 2026)

All 18 routes screenshotted at 1280 px and 390 px after the brand and content changes. No jumbled or overlapping layouts on either viewport. Three items carried forward rather than fixed, because each is a decision, not a defect:

- **Bulky Items beside Blankets, Rugs & Sheets** on the Services and Pricing pages: two adjacent large-textile categories a customer may not distinguish. Options: merge into one table (recommended), or add a one-line distinction to each heading.
- **Desktop chrome in the customer app.** At 1280 px the marketing top nav and the phone-style bottom tab bar are both on screen, and the app column is phone-width. Works correctly (the tab bar is fixed to the viewport; a full-page capture misplaces it, a real scroll does not) but duplicates navigation. Options: hide the marketing links inside app routes on desktop, or widen the app column. Owner Callum.
- **Callout styles.** The operators page introduces a dashed-border box for "what we cannot tell you yet", a third callout style beside the warning box and the plain card. Deliberate or not, worth a decision.

Verification added to the repository

Check	What it proves	Result
verify/preflight.py	Eight checks: one executable script that parses, no duplicate IDs, 34 sections, every getElementById target exists, zero emoji, every font-size and letter-spacing value is a token, every function called is defined , and the AU compliance sentinels are still present. The seventh check is the one that would have caught the boot defect; run against the original v4.2 it reports exactly wireSettings and wireWizard.	8/8 PASS
verify/e2e.js	Drives a real browser through the flow a customer follows: save an address, see the coverage answer, choose a service, use the stepper, pick a window, hit the terms gate, confirm, then assert the booking record, the message and the Bookings list. Fails on any uncaught script error.	20/20 PASS
verify/a11y.js	Walks every visible text node on all 18 routes at 390 px, resolves the real background through the ancestor chain including alpha, and measures contrast against the 4.5:1 and 3:1 floors. Also checks accessible names and the WCAG 2.2 target-size minimum.	0 ISSUES

The accessibility sweep found three defects on its first run, two of them introduced by this build: muted text fell to 4.29:1 when the page surface changed from white to paper underneath it, and the hero eyebrow rule was scoped to the whole home page rather than the hero, so eyebrows on paper bands measured 1.36:1. The third was pre-existing: 23 form inputs across four pages had visible labels that were never associated with them, so a screen reader announced an unlabelled edit field. All three are fixed.

What has deliberately not changed

- **Pricing.** Load \$32, delivery \$13.50 and minimum \$73.50 are unchanged and still read from config/pricing. Two content decisions of 19 September 2026 sit on top of this build: ironing was withdrawn as a service (no wash-fold-iron, no iron-only) and replaced by a per-item Blankets, Rugs & Sheets service at \$24 / \$32 / \$42; and Legends Club rose 30% to \$63.70 / \$89.70 / \$115.70 a week. The home-page saving now computes from those live figures rather than a typed number.
- **Compliance text.** Every sentinel is still present and is checked on every build: the NDIS statement, the AS/NZS 4146 statement, the contractor and ABN statements, GST-inclusive pricing and the Australian Consumer Law statement.
- **Footer entity text.** Still the placeholder. D13 is Max's to supply and was never going to be invented here.
- **The live artefact.** Not republished. The work is committed to the branch and waits on a principal's decision to publish.

WHAT THIS CHANGES ABOUT THE PLAN

1. **M1 was further away than the board showed.** "First job operational" assumed a working booking flow. Until this build there was not one. M1 is now genuinely reachable, and the gating items are the ones in Part 16: the entity and ABN, the seeded config, and the first operator.

2. **A design audit is not a functional test.** Part 7 was thorough and correct about what it looked at. It looked at rendering. The three scripts above close that gap and now run before every publish.

3. **Add KEA-24:** "Ops portal walkthrough against a real booking" — this build verified the customer side end to end but the ops side (assign, collect, weigh, invoice, mark paid) has been exercised only by reading the code. Owner Callum, before the first paid job.
